PAPER STATIONERY

CATALOGUE 2026

[SILVINE.COM](https://www.silvine.com)

BRITISH MADE PAPER STATIONERY

SUSTAINABILITY? SORTED!

We care about our environment, we always have and always will. We want everyone to be as passionate about our environment as we are. With all the green washing out there and so much jargon, sometimes it's hard to see the wood for the trees! Let us help to explain our process and some common environmental lingo.

RECYCLE WASTE PAPER

Paper in it's nature is truly sustainable and can be recycled.

MANAGED SUSTAINABLE FORESTS

Grown as a crop, harvested and replanted ready for harvest again

RESPONSIBLE PAPER MAKERS

100% of our materials are sourced from well-managed, certified suppliers!

HAPPY CUSTOMERS

We make some of the nation's best loved brands including Silvine, Luxpad, Silvine Originals and Artgecko Sketchbooks.

SINCLAIRS

MAKERS OF BRITISH STATIONERY > 1837

SPECIALY SELECTED PAPERS

FSC® Certified

UK DISTRIBUTION

Our products are made and delivered in the UK.

CERTIFIED MANUFACTURER

UK located and accredited ISO 9001 and ISO 14001 production facility.

MINIMAL PACKAGING

We use just enough packaging to protect our products to get to the customer in tip-top condition.

> To find out more about our ongoing commitments, please visit: sinclairproducts.com/sustainability

ORIGINALS

BRITISH MADE

Sometimes it's the smallest things that make the biggest difference, yet quite often go unnoticed. Take for example, perforated pages that make removing any page effortless and hand stitched spines with fully finished ends that won't unravel. You'll more than likely never pick up on them, but that's a good thing because it means they're doing their job and all that extra effort was worth it.

Nestled amongst the narrow streets and stone-built terraces of Otley, a small market town straddling the border of North and West Yorkshire, stands our factory, Silvine Works. Before we even opened our doors over 175 years ago, British attitude has been one of enthusiasm, innovation and endeavour. And since we first set our presses running, we've lived by this ethos. After all, we're a British company and very proud of it.

sustainable stationery CLIMATE FRIENDLY

SCRIBBLE IN A SILVINE SAFE IN THE KNOWLEDGE YOU'RE USING SUSTAINABLE STATIONERY!

Paper stationery is lovable stuff. But, as you sit down to write on your Silvine notebook's first pristine page, the last thing you want is the thought of swathes of rainforest trees being decimated for this moment of pleasure. So here are a few things we thought you should know about Silvine, so you can put your pen to paper without so much as a flicker of guilt:

- 100% of our product materials are from well managed sources, including FSC® (Forest Stewardship Council) certified papers.
- We ensure our paper comes from sources where workers' civil rights are not violated.
- Paper fits into the circular economy model seamlessly. Its raw material, wood fibre, is a renewable, natural and sustainable resource. Paper is easily collected and recycled, ensuring these valuable fibres are used time and time again. *(source: twosides.com)*
- We do not buy paper made from illegally harvested wood – whether from natural forests, or from forests which have been cleared to make way for plantations or other non-forest enterprises.

Paper fact file

- 74% of paper and 83% of paper-based packaging in Europe is recycled into new products *(source: CEPI, 2020 + Eurostat, 2018)*
- It's estimated that, in Europe alone, forests are increasing annually by an area equivalent to more than 1.5 million football pitches *(source: lovepaper.org)*
- Over the past 40 years, the worlds forests have moderated global warming by absorbing around 1/4 of the carbon dioxide emitted by human activities *(source: lovepaper.org, The Soil Association, Sustainable Packaging Report: The case for paper, 2020)*
- The print and paper industry is one of the lowest industrial greenhouse gas emitters in Europe, accounting for just 0.8% of CO2 emissions in 2022. This is low compared to non-metallic mineral products industries (3.2%) and basic metal industries (2.6%). *(source: European Environment Agency, Greenhouse Gasses – Data Viewer, 2024)*
- Paper is truly sustainable, with waste fully recoverable ready for recycling into new paper

We've invested heavily in solar panels across our entire facility and in 2022 – we went from producing 420,000 kw of clean electricity to 695,000 kw – increasing our generation of clean power by around 50% - what we can't use, we export to the national grid.

Silvine paper stationery is made by Sinclairs - a British maker of paper stationery who are committed to producing high quality products whilst being mindful of their environmental impact. Want to learn more? Scan the QR code or visit sinclairproducts.com/sustainability
