

Franchetti S.p.A.: announces its participation on October 21st at "Next Gems 2025"

Arzignano (VI), October 13th, 2025 – **Franchetti S.p.A.** ("Franchetti" or the "Company" or the "Group", Ticker BIT: FCH), parent of the multinational software development and engineering design Group of the same name, which provides safety and predictive scheduling of maintenance activities on infrastructural network structures, announces its participation for October 21st at "**Next Gems 2025**", an event organized by Virgilio IR and MyTwinCommunication, which will be held in Milan on October 20th and 21st, 2025, at Palazzo Mezzanotte, headquarters of the Italian Stock Exchange.

On this occasion, the Company's top management will meet institutional investors, presenting them with the latest financial results and outlining future strategic directions.

The presentation will be made available on the www.franchetti.tech website, "Investor Relations/Presentations" section.

This press release is available on the www.franchetti.tech website.

Franchetti S.p.A.

Franchetti S.p.A. heads the Franchetti Group, a pioneer in the management, diagnostics and predictive maintenance of infrastructure (bridges and viaducts in particular). Founded in **2013** in Arzignano (VI), with subsidiaries in **Brazil and Canada** and operations in the US and India, Franchetti is an **innovative SME** that has worked on **over 40,000** equivalent motorway and railway **bridges** worldwide. The Group boasts a technical and scientific track record that places it among the industry's leading international experts. Operations are broken into **two main business lines**: diagnosis and planning for infrastructure maintenance, with inspections and assessments, intervention planning and construction management and ICT services for the predictive programming of infrastructure maintenance. Franchetti has in fact developed **proprietary software** programs that leverage the potential of artificial intelligence and predictive data analysis: **Argan@** can estimate an infrastructure's life cycle and automatically assess safety levels over time for a range of maintenance scenarios and contexts, **Pathwork@** ensures the optimized management of road and highway works on infrastructure and to support sustainable mobility, while **SIDECHECK@** can intelligently compare collected data related to inspections, inspectors, schedules, and work estimates to make the evaluation process as objective and complete as possible. With a workforce of **approximately 130 professionals**, more than 90% of whom are engineering graduates, the Group achieved a Value of Production of **Euro 9.0 million** in 2024 (+28% on FY23) and EBITDA of **Euro 3.4 million** (+34% on FY23).
