

PRESS NOTE**Franchetti S.p.A. announces its participation in the "Munich Capital Market Conference 2025"**

Arzignano (VI), 5 November 2025 - **Franchetti S.p.A.** ("**Franchetti**" or the "**Company**" or the "**Group**", Ticker BIT: FCH), the parent company of the multinational software development and engineering design group of the same name aimed at the security and predictive scheduling of maintenance activities on infrastructure network structures, announces its participation on 13 November 2025 in the "**Munich Capital Market Conference 2025**", an event organized by GBC AG – Investment Research in Munich at the Charles Hotel Munich.

Franchetti's top management, represented by **Paolo Franchetti**, *Chairman and Chief Executive Officer*, will take the opportunity to present its recent financial results and future strategies to major German institutional investors.

The presentation will be made available on the www.franchetti.tech website, "Investor Relations/Presentations" section.

This press note is available in section <https://www.franchetti.tech/news>.

Franchetti S.p.A.

Franchetti S.p.A. is the head of the Franchetti Group, a pioneer in the field of management, diagnostics and predictive maintenance of infrastructures, bridges and viaducts in particular. Founded in 2013 in Arzignano (VI) with subsidiaries in Brazil and Canada, activities in the USA and India, Franchetti is an innovative SME that has operated on over 40,000 equivalent motorway and railway bridges worldwide. The Group boasts a technical and scientific curriculum that places it among the leading international experts in the sector. The activity is divided into two main business lines: diagnosis and therapy services for infrastructure maintenance with inspections and assessments, design of interventions and, construction management and ICT services for predictive planning of infrastructure maintenance. Franchetti has in fact developed proprietary software that exploits the potential of artificial intelligence and predictive data analysis: Argan® which makes it possible to estimate the life cycle of the infrastructure and therefore automatically derives the trend of the level of safety over time in the different scenarios and maintenance contexts, Pathwork® which allows an optimized management of road and motorway construction sites of infrastructures and for sustainable mobility and SIDECHECK,® able to intelligently compare the data collected relating to inspections, inspectors, planning, work estimates to make the evaluation process as objective and complete as possible. With a staff of 70 professionals, of which more than 90% have a degree in engineering, the Group achieved in the first six months of 2025 a Value of Production of 5.7 million Euros (+62% on 1H24) and an EBITDA of 1.8 million Euros (+68% compared to 1H24).
