About

For over a decade, Laughing Waters has been enhancing the most prestigious developments in the country with their creative and award winning water features. Laughing Waters creates high-quality projects through a team of world renowned experts in design, engineering, water filtration, manufacturing, and hands on artisans for unique environments.

Laughing Waters has created a team and network that is capable of executing the most challenging and unique projects in the world on-time and on budget.

Qualifications

Over the last twelve years, Laughing Waters has completed hundreds of water features nationwide. As one of the most experienced designers and builders in the country, LWI's projects can be seen in resorts, ranches, public parks, zoos, commercial developments and private residences.

From engineering to site development, Laughing Waters creates water features of the highest level. Our team sets industry standards in Design and craftsmanship when it comes to water feature plumbing and construction techniques. Our quality and attention to detail is rarely matched by our competition. With Worldwide resources and partners, Laughing Waters has the ability to design, engineer and build the most complex and beautiful aquatic displays imaginable worldwide.

SERVICES

Design

Developing a display fountain is an incredibly complex process. Having the assistance of a seasoned water feature professional to aid your design team will pay off greatly over the lifetime of the project.

Consulting

Our team of water feature professionals is willing to work with your team on any step of the process. Even if we do not physically install the feature, we are capable of consulting with your team to execute the project.

Service

Fountains, although beautiful are not without their challenges. Fountains require a great deal of service to stay viable and operational. Our team of fountain experts are deployable nationwide to service and troubleshoot.

Installation

Our veteran crew of expert installers and project managers will execute the entire construction process from start to finish.

- Turn Key Service
- Specialty Hydraulic & Filtration Systems
- Aquatic Life Support Systems
- Fountain Construction
- Skilled Site Management
- Stone Work
- Crews Available On-site Worldwide

RODNEY SQUARE | WILMINGTON, DELAWARE

SECURA CORPORATE HEAD QUARTERS | NEENAH, WISCONSIN

Fountain Construction

Laughing Waters is your source for all types of water features. The best time to involve Laughing Waters is in the ideation phase of your fountain project. Our team can assist you from concept to completion, and we build to all specifications. Our team of designers, engineers, fabricators and installers can execute even the most complex features.

CITY HALL PARK | BURLINGTON, VERMONT

Natural Water Features

Our team of experts are deployable nationwide to create waterfalls, ponds and streams so beautiful that they are indistinguishable from nature.

Aquaculture

Today's modern aquaculturist needs a partner that is able to help with the scope and variety of challenges they face every day. That is why the Laughing Waters team has experts with diverse backgrounds in aquaculture, biological and technological engineering, grounded in decades of research and commercial industry application experience. Each farm is unique and deserves a customized approach, include Laughing Waters at the time of ideation to ensure your project is successful.

Zoological Environments

Zoos exhibits and environments are created to be sustainable and look as natural as possible. When water quality and build natural aesthetics are of paramount importance, look to the Laughing Waters team to create your one of a kind zoological environment.

Maintenance & Support

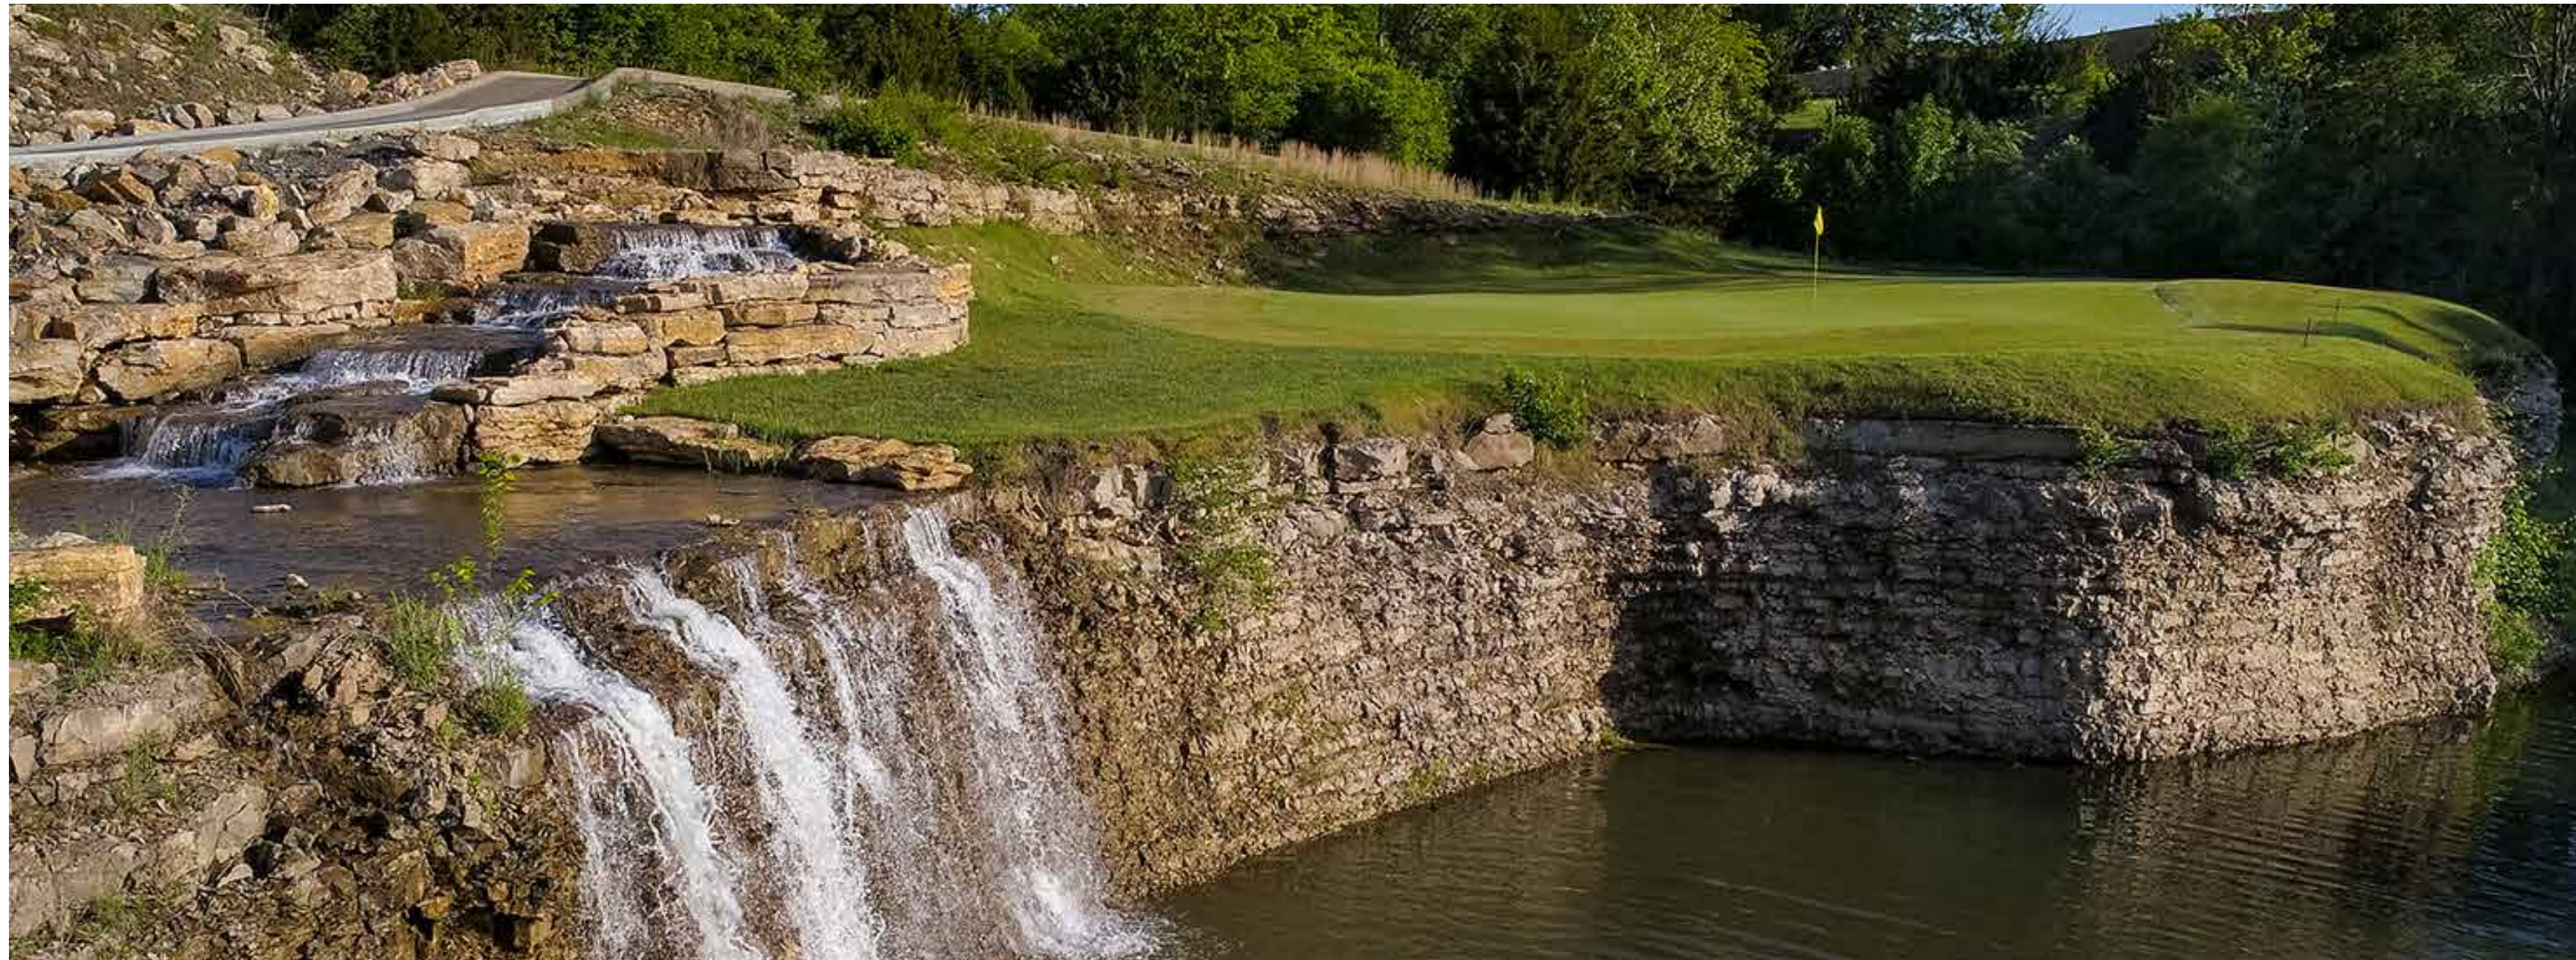

The project is not over without a maintenance plan in place. Laughing Waters can form a unique maintenance service plan specifically for your water feature.

- System start-up
- Remote systems monitoring
- Technical support on/off site
- Winterization service
- Refurbishing
- Maintenance schedules
- Nationwide service and support

Professionals around the world trust Laughing Waters to turn their vision into reality. We've worked with leading architects and general contractors, and world renowned designers to create monumental projects, ranging from City Center Fountains to Golf Courses and retail developments.
