

Kim Stanley LPN, CPD, CBC, CNCS - Letter of Reference

To new & expecting parents in the Fairfield County area:

We are eager to provide a professional reference for Kim Stanley, LPN, CNCS (Littlest Angel Care), who worked with our family as a night nurse for the first three weeks after the birth of our daughter, Miller.

Kim was exceptional from the start. She is deeply knowledgeable about newborn care and immediately inspired comfort and confidence - not just in handling a newborn safely, but in understanding feeding, sleep, soothing techniques, and the many small but important details that a new parent is still learning in the early weeks. As "first-timers", having someone with her level of experience and calm judgment during the nights made a meaningful difference for our family.

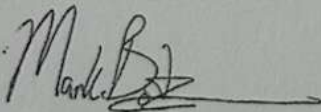

What stood out most was Kim's professionalism and judgment. She was attentive, proactive, and thoughtful in how she approached Miller's care, while also being respectful of our preferences and pediatric guidance. She communicated clearly, noticed patterns quickly, and offered practical suggestions grounded in experience rather than dogma.

Kim was reliable, discreet, and steady, exactly what you want in someone caring for a newborn overnight. We consistently woke up knowing our daughter had been well cared for and that we were getting the rest we needed to be effective parents during the day.

I would enthusiastically recommend Kim without hesitation to families seeking overnight newborn support, and I would encourage pediatricians or other professionals to refer her to their patients. She is highly capable, trustworthy, and brings real expertise to her work.

Please feel free to reach out if additional context would be helpful.

Sincerely,
Mark & Brooke Botros
