- 1.State your name.
- 2.State the name of your company
- 3.State your area of expertise
4. Describe what that is in terms that a juror with a seventh-grade education would understand.
5. Give examples of work you have done for lawyers, as an expert and/or consultant, using that expertise. It would probably be helpful to mention some of the key facts of the relevant cases or matters and where you fit in.
6. Plan to do these things in no more than 10 minutes. My suggestion would be to speak for around seven minutes and leave three minutes for questions.
