

Carbon Reduction Plan

Supplier Name: SECURIGROUP Ltd

Publication Date: 05/03/2026

Commitment to Achieving Net Zero

SecuriGroup Ltd is committed to achieving Net Zero emissions by 2040.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured

Baseline Year: 2023-24 (September – September)

Additional Details relating to the Baseline Emissions calculations.

This baseline has been chosen as it is the first full scope 1, 2 and 3 emissions report for all operational and organisational activities.

Baseline year emissions:

EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	295.52
Scope 2	28.26
Scope 3	Business Travel - 251.13
	Commuting + Homeworking – 3,098.52
	Waste – 12.52
	Water - 0.07
	Total WTT – 870.71
	Purchased Goods and Services – 420.44

Total Emissions **4,977.22**

Current Emissions Reporting

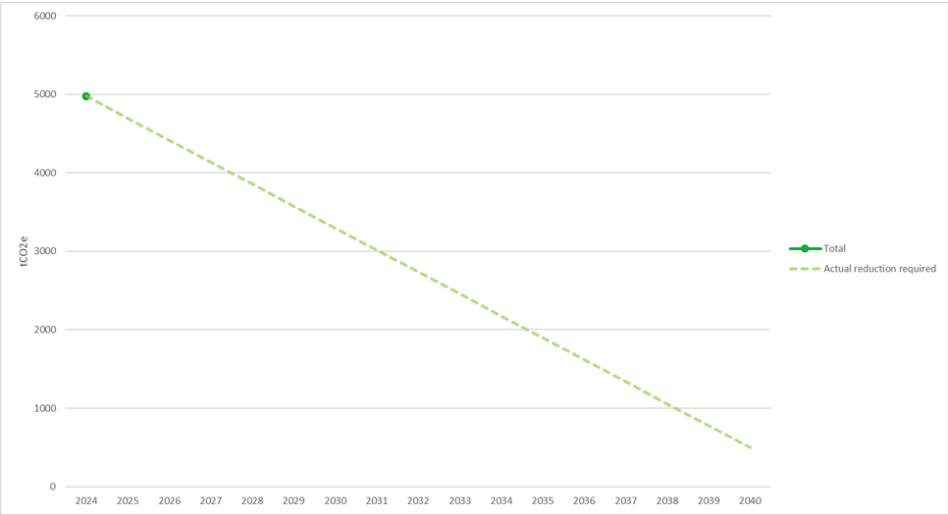

Reporting Year: 2024-25 (September – September)	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	285.92
Scope 2	24.59
Scope 3	Business Travel - 238.57
(Included Sources)	Commuting + Homeworking – 3,067.53
	Waste – 12.27
	Water - 0.08
	Total WTT – 853.30
	Purchased Goods and Services – 412.03
Total Emissions	4,894.29

Emissions Reduction Targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets:

We project that carbon emissions will decrease over the next 16 years to 497.721tCO₂e by 2040. This is a reduction of 90%

Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2023-24 baseline. These measures will be in effect when performing the contract.

- Full Scope 1, 2 and 3 footprint measurement through the achievement and maintenance of the Neutral Carbon Zone Gold Certification.
- Maintenance and improvement of EMS (ISO certification 14001).
- Planting of SecuriGroup forest.

In the future, we hope to implement further measures such as:

- Continued development of internal policies to encourage sustainable practices not only in office operations but also on all sites.
- SecuriGroup Ltd will review fleet vehicles with the option to change all to electric by 2030. This could reduce emissions up to 100% in Scope 1 and 2 if a renewable electricity tariff is in place and up to 73.07tCO₂e in Scope 3.
- A review of water use and energy practices across all sites to help identify areas of unnecessary consumption. This also includes a review of the electricity tariffs within the office to ensure renewable contracts are in place.
- A recycling commitment to be put in place to ensure that all waste is diverted from landfill by encouraging less waste and recycling wherever possible (paper, uniform, equipment).
- SecuriGroup Ltd continues to take steps to become a paperless business by developing the SecuriGo app and replace paper-based processes.
- The Energy Saving Opportunity Scheme (ESOS) is a government-led initiative. SecuriGroup Ltd will implement an action plan to reduce energy consumption. From this, a series of measurable actions to take and improve energy efficiency have been created.
- A sustainable transport scheme will be implemented to encourage employees to use public transport wherever possible and to review where travel is essential. This can include car-share schemes, cycling, EVs etc wherever possible.
- SecuriGroup Ltd will look to implement comprehensive training programmes for its staff on carbon literacy.

Carbon Reduction Projects

- The implementation of a full supply chain compliance programme to engage, monitor and ultimately influence the reduction of emissions within this category establishing supplier by supplier scoring.
- Offsetting plan to expand on the SecuriGroup forest.
- Commitment to near-term and net-zero carbon reduction targets with the SBTi.
- Commitment and signatory of the Climate Pledge

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:

CEO Russel Kerr – 05/03/2026
