YOUR PATIENT-CENTERED MEDICAL HOME

At Pediatric Clinic,
our goal is to provide your child
with a high standard of healthcare.
One way we can do this is to be a
Patient-Centered Medical Home.

This means that we value a strong link
between you, your child, and our physicians.
To have this link, you need to have
open and honest discussions
regarding your child's health
with our physicians.

Our staff and physicians
will make every effort to work
with you to promote your child's
good health, development, and safety,
and to treat any medical condition that may arise.

Your child's care will be directed
by our pediatricians here at Pediatric Clinic
always to assure optimal care.
This is why it is so important that you
contact us first for your child's healthcare needs.

If medical treatment,
testing and/or follow-up office visits are needed,
following through with those recommendations are key
to keeping your child healthy and treating illness.

Helping you to keep your child in the very best of health,
The Doctors and Staff at Pediatric Clinic, P.C

Thank you for partnering with our office and taking an active role in your health. In order to enhance our partnership, it's important we share some helpful practice information. *Our website: www.pediatricclinicpc.com*
