To determine your final Passing Points take your final finish points and then add/subtract using the following format: Points earned per car passed + 5. Points lost for each lost position - 1.5

Heat winners will be lined up in front of passing points. They will draw for position using the traditional Tour Frisbee re-draw in front of the grandstand. Top 8 in passing points will line up after the heat winners. B-mains will be lined up after the top 8 in passing points. All ties will be broken with the lowest initial draw number of the night between the tie(s).
