

PEM RACING - GEARS, REARS, DIVESHAFTS

PEM Racing is back for the 4th year with sponsorship for the 2023 34th Annual Dakota Classic Modified Tour. Each night the 3rd place finisher in the IMCA Modified Feature will receive a \$150.00 product certificate and the IMCA Stock Car 3rd place finisher will receive a \$100.00 product certificate.

The Tour Champion in IMCA Modifieds will also receive a \$250.00 product certificate and the IM-CA Stock Car Tour champion a \$200.00 certificate.

PEM Racing manufactures 9 inch Ford rear ends and gears, quick change rear ends, quick change gear sets and driveshafts. The 9 inch ford gear center sections are built with all new parts for durability. Quick change rear ends are available in standard and the Black MAX option rears with REM ISF Polished and lightened internals. The most popular quick change gear set sold is the 650 series Polished LW sets.

Another service PEM Racing offers is REM ISF Polishing of customer supplied parts for reduction of friction.

Usually gears, wheel bearings, transmission and internal engine parts.

PEM Racing is proud to be located in the Midwest and is celebrating it's 16th year in business. Another positive for 2023 is a new warehouse addition to give more production floor room. The location in Saint Clair, Missouri is just 45 miles west of Saint Louis, Missouri on I-44.

You can find PEM Racing products on the company web site www.pemracing.com, email sales@pemracing.com or by

phone 636.629.6200.

PEM Racing also supplies many local parts dealers, warehouses and chassis builder.
