PROTECT THE RETURN OF YOUR INVESTMENTS! PRECISION CROP REPORTING

We offer Precision Crop Reporting for better crop and claims reporting. We want to stay on top of today's technology and provide our customers with the most up-to-date technology services available.

- *Reduced Premium by only insuring the acres where the seeder/planter went.*
- *Free to use. You already have the GPS data in your compatible farm equipment.*
- *Get paid faster.*
- *Claims for Prevent Plant and production losses can be processed quickly.*
- *Have a running history in the program to look back at acres, yield, and any work done in the field. With Precision RMA reviews, we only need to go back to the previous year, instead of 3 years.*
- *Grain from the year before can be comingled as you have the precision production data for the year.*
- *APH Yield increases as you more accurately report insured acres.*
- *Can be used for Acreage Reporting, Production Reporting, or both.*
- *It is found to be beneficial even when used to report planted & PP acres.*

Crop insurance changes all the time and can be very complicated, Gateway Insurance stays on top of the technology we have access to and provide the best possible coverage for the risks farmers' face on a daily basis!
