

PROFILE

Anna has over 10 years' experience working as an Occupational Therapist.

As an Accredited Hand Therapist, Anna has experience treating people with orthopaedic injuries, arthritis and general medical conditions.

Also a qualified teacher, Anna has an interest in education and has been a member of the AHTA education committee.

She has a commitment to professional development which enables her to keep up to date with evidence-based research and recommendations, which includes areas pertinent to the National Disability Insurance Scheme (NDIS) and legal frameworks.

ANNA MUNRO

Occupational Therapist

PROFESSIONAL QUALIFICATIONS AND AFFILIATIONS

- Current Registration with the Australian Health Practitioner Regulation Agency (AHPRA)
- Accredited Hand Therapist
- Full Member of the Australian Hand Therapy Association (AHTA)
- Registered Teacher with the Victoria Institute of Teaching
- Bachelor of Occupational Therapy, La Trobe University, 1998
- Bachelor of Teaching (Primary & Secondary), Deakin University, 2001

AREAS OF EXPERTISE

Independent Occupational Therapy Assessments

Anna has been working as an Occupational Therapist for the past 10 years. During this time, she has developed expertise in assessing individuals with a range of muscular and orthopaedic conditions. She has experience treating patients with trauma to the upper limb, including fractures, amputations, crush injuries, repetitive strain and tendon and nerve repairs, as well as arthritis.

She has been involved in returning clients to work post recovery, and for those not at work, a timely return to activities of daily living.

Currently, Anna conducts assessments for participants on the National Disability Insurance Scheme (NDIS) and provides recommendations regarding supports.

Anna is able to provide a credible opinion in regard to any or all of the following;

- Past and future care needs
- Capacity of employment
- Future therapy needs
- The need for assistive technology
- NDIS access matters

STRENGTHS

- Current clinical experience
- Clear and concise report writing skills
- Commitment to ongoing professional development
- High-level assessment and treatment of hand and upper limb pathologies
