

About us

The Colella Lucia Farm is a company specialized in the production and supply of high quality fresh vegetables and fruit. The company boasts a decade of experience in the sector, but already rich in a long family tradition, the Colella Lucia Farm has specialized in the production of:

asparagus, tomatoes, mini watermelons, melon, broccoli cabbage, artichokes, pumpkin, cabbage, turnip greens, chard, placing respect for the environment and the enhancement of local resources at the center of its business.

We are proud to be a family-run business where experiences and traditions are intertwined with innovation and sustainability. To meet the ever-increasing demand from the customer, we have started a Cooperative that can rely on a production of over 400 hectares, where our farm is the first producer.

Our Mission

Our mission is to provide our customers with nutritious fresh vegetables and fruits, while ensuring sustainable agricultural practices and excellent quality of service.
