What's new for 2026?

Healthy food and utilities qualification is required

Through Special Supplemental Benefits for the Chronically Ill (SSBCI), qualifying D-SNP members will be able to use their OTC credit on covered healthy foods and approved utilities like electricity or home heat such as natural gas. To qualify for SSBCI benefits, members must meet specific criteria, including having one or more qualifying conditions. If UnitedHealthcare cannot verify an eligible condition, the member will lose access to the healthy foods and utilities benefit. UnitedHealthcare estimates more than 90% of existing UnitedHealthcare D-SNP members will be verified for SSBCI benefits*. Please refer to the SSBCI Quick Reference Guide for more details.
