

# CRAIG T. ABERCROMBIE, PS, LEED\_AP

VICE PRESIDENT OF OPERATIONS/PROJECT MANAGER

## *Key Qualifications*

Craig performs project management, construction administration and site design for the firm's projects. He has exemplary problem solving skills and can visualize what designs should be implemented in order to produce a very successful project, while maintaining a balance to the constructability and cost. With over 25 years of experience on local and regional projects, Craig's knowledge of the zoning and municipal codes and rules and regulations of public and private utility agencies proves to be invaluable for project code navigation and overall team success.
