CINDART APC

AUTOMATIC PORTAFILTER
CLEANER

Replacing your loud knock out draw with the quiet and graceful APC, will save you time and energy when cleaning your portafilter. The APC is compact and adaptable; fitting into most spaces, counter tops and knockout bins. The alternating motor direction, will polish your basket with minimal fuss and turn noisy banging to a quiet hum.

Effortless maintenance
Interchangeable paddle sets click into place with no tools needed.

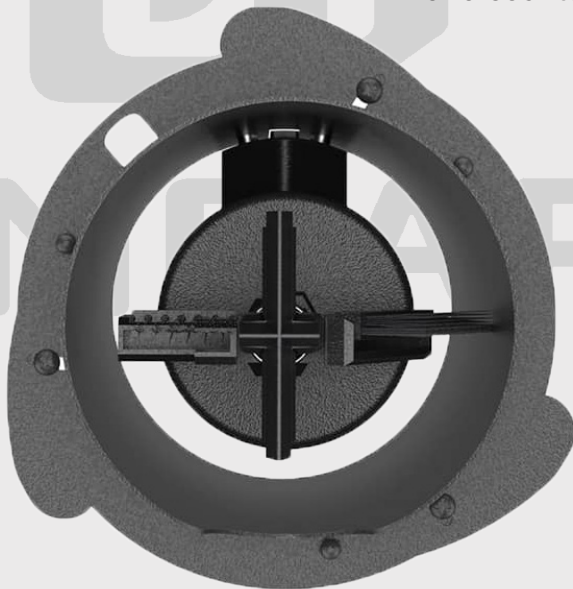

Fits anywhere
the tri-wing system means the APC can be installed into existing knock chutes and counter cut outs.

Clean operation
the APC stays clean with a reverse gear to prevent grounds build up on the paddle.

Compatible with all portafilters
customisable paddles. Cut to size for the perfect clean.

Easy, no frills operation
simply press your portafilter into the paddle to activate.

Durable construction
steel frame with internal motor, the APC comes with spare cleaning

ADJUSTABLE TRI-WING INSTALLTION
