SERIES 9500

PATIO DOORS

EXCELLENT CRAFTSMANSHIP

Optional 1 1/4", 2" brick mould with sill extension or nail fins, plus many interior finish options, perfect for both renovation and new construction projects.

Maintenance-free, multi-chambered PVC profiles for maximum insulation. Built to last, our vinyl extrusions are 25% thicker than most other patio doors.

Owen Corning's air sealing technology keeps your home warm in the winter and cool in the summer.

Steel reinforced for strength and security.

Modern, ergonomically designed aluminum handle with optional key lock.

Robust extruded interlock provides a weatherproof seal between panels

5 3/4" standard frame depth. Optional custom sized jamb extension depths available

STANDARD GLASS TECHNOLOGY

- ▶ Sliding panels are equipped with double strength 3mm 1" Low-E tempered argon filled glass and Intercept Ultra warm Edge spacer, covered by a limited lifetime seal warranty.

OPTIONAL GLASS TECHNOLOGY

Looking For Optimum Energy Efficiency & Performance?
Try These Options:

▶ **ēvolv** MARKET LEADING GLASS TECHNOLOGY

KP's Proprietary **ēvolv** Glass Technology provides triple-pane thermal efficiency in a duo-pane patio door by reflecting escaping UV rays back into the room, increasing thermal efficiency, which **adds up to substantial energy savings**.

- ▶ **Sol-R® Shield 272** is a glass which is covered with two layers of Low-E coating and sealed with Argon gas between the panes. This package prevents the sun from heating the home in the summer and reflects the homes heat back into the room in the winter. This glass blocks 79% of damaging UV rays.

**KP manufactured
patio doors withstand
winds blowing up to
180 MPH !**

single glide

- Patio door with 1 operating panel and 1 fixed panel (operating panel can slide and lock from left or right side).

ENJOY THE VIEW™

Interior and exterior sill tracks have separate drainage ports for superior resistance to water penetration.

Vinyl extrusions are

25%

thicker than most other patio doors.

All Series 9500 vinyl sliding patio doors are designed for exceptional style with the utmost in comfort and security. Our PVC extrusions, manufactured in our state of the art facility, never need painting and will not rot, crack, warp or split. Our doors have been tested to withstand over 180 MPH winds. KP patio doors are truly built to last.

dual glide

- Both door panels open from left or right sides.
- Unbeatable adaptability: equipped with dual locks, the heavy duty screen can be used on either side.

With internal blinds
that move up &
down as well
as tilt!

dual glide with intergrated blinds

(in between glass)

Exclusive sliding system with
nylon bearing rollers on sashes
ensuring smooth, quiet and
corrosion free operation.
Available in both single and
dual glide models.

Color Options

Chroma VX technology is based on a specific blend
of urethane and acrylic polymers. This proprietary
process provides a beautiful rich, low gloss, smooth
finish that will last throughout the years.

Chroma VX, an exclusive technologically advanced
formulation enhances weatherability and is compliant
with the highest standards of AAMA.

Our versatile color system allows you to add any of
our window colors to your patio door's exterior,
while leaving the interior finish a neutral white.

	Ivory (08)	Matchcoat Beige (75)	
Khaki (96)	Chocolate (28)	Commercial Brown (12)	Hunter Green
