A sustainable exterior presence.

Market Square® Siding is as green as it is colorful and curb appealing. It's engineered to eliminate the need for painting or staining, and represents its environmental friendliness in many different ways—from production and manufacturing to transportation and installation. For example, virtually all scrap materials are recycled during production, and no hazardous materials are emitted when it's cut for installation.

- **Manufactured from recyclable materials**
- **Rivals cedar in overall green performance**
- **1/3 the environmental impact of fiber cement**

D5 is not available in Smart Styles™ Premium or Expressions Colors. Actual siding color may vary slightly from printed brochure.

Home is fully expressed when you discover the right color.

When it comes to how your siding presents itself, color is crucial. So we pay a lot of attention to what's trending and what works. Choosing your own colors can be fun, but a bit overwhelming. If you need a nudge, get ideas and tips from our color combining tool at RoyalBuildingProducts.com/ExteriorPortfolioColorCombos.

Using Chromatix™ technology to optimize your pigments and protect your investment.

We develop our colors to keep their eye candy promises when they're fresh, and way down the road. So we fashioned our siding pigments to deliver vibrant curb appeal, resist fade and fend off elements day after day.

Our proprietary Chromatix™ technology color protection features infrared-reflecting pigments to reduce heat buildup. We added a UV formulation with mineral-based pigments to keep siding colors from fading. Sound a bit scientific? It should, because we understand the importance of effortlessly maintaining the look you create in a challenging outdoor environment. And, we back it up with an industry-leading Double Lifetime Warranty. What you get is rich, true color that raises the curb appeal of your Market Square® Siding.

- Featured in Smart Styles™ Premium and Smart Styles™ Expressions shades
- Proprietary infrared-reflecting pigments reduce heat buildup
- Warranted to fade less so dark colors stay true
