# - FILAMMON VISION ABOUT US 

## FILAMMON CORE VALUES

## OUR HISTORY

Filammon is built upon manufacturing excellence and engineering passion across all our products - a philosophy and identity which Italian design is renowned for. Drawing upon the experience from a generation of artisans, we continue to hold their traditions to set ourselves apart and create some of the world's leading and most enduring designs.

Filammon is founded in 1949 by Mr Alessandro Filammon in Maranello. Originating from a family artisan workshop, Filammon invested in production technologies and designs and have successfully expanded into different categories, consisting of state-of-the-art appliances, joinery and other lifestyle products inspired by Italian heritage.

The successful combination of entrepreneurial spirit, technical and creative expertise enables Filammon to constantly evolve with the social and economic changes of the eras. Filammon through the ages continues to be a leading player for setting contemporary lifestyle trends.

Since the company's inception, Filammon has been committed to manufacturing household appliances with uncompromising standards in durability, performance, functionality, user experience and energy efficiency. We focus on delivering exceptional products so that our customers can focus on enjoying every single moment in their kitchen sharing their culinary creations with their loved ones.

In our Casa \& Décor range, we have expanded our vision to not only provide top tier appliances but to create joinery solutions for all areas of your home: kitchen, living, bedroom \& bathrooms. Alongside these joinery solutions, we also provide décor services - curtains, blinds, cushion covers and bed runners.

To ensure the consistent excellence, production and efficient delivery of all our premium appliances, joinery and Décor, Filammon upholds the following key four core business philosophies: Entrepreneurial Spirit, Uncompromising Quality, Passionate Innovations and Environmental Responsibilities.

## FILAMMON AROUND THE WORLD

Filammon is founded in a town in Northern Italy, which is a region of rich history, culture, architecture, design, manufacturing, fashion and food.

Today, Filammon has manufacturing plants in Europe and Asia, as well as overseas offices in China, Korea, Australia, the United States, France, Germany, Sweden, Spain, Portugal, Russia and Mexico. Filammon also has a network of distribution partners all over the world found in:

Eastern Europe, Scandinavia, the Middle East, the Mediterranean, North and South Africa, Asia, New Zealand, Canada, Central America and Latin America.

Filammon incorporates European design \& engineering paired with the ease of selected OEM manufacturing with local premium services. It is committed to upholding the standards of the past while advancing them for the future, with excellence in all we do a promise we keep.

# DESIGN INSPIRATIONS 

Origins | Lifestyle | Design

> "You can reach timelessness if you look for the essence of things and not the appearance. The appearance is transitory - the appearance is fashion, the appearance is trendiness - but the essence is timeless".
> Massimo Vignelli (Renowned Italian Designer \& Architect)

## OUR ORIGINS

In Filammon's home town of Maranello in Northern Italy, culture is intrinsically linked to style. Max Mara, Giorgio Armani, Guccio Gucci and many other world-renowned style leaders are born in the country where Filammon was created and is always inspired by.

One of the key inspirations for the Filammon designer range is the concept of lifestyle. Architecture in today's world is not just about form and function but also how it incorporates the ever-changing lifestyle of its inhabitants. Filammon has that principle incorporated in our design.

## PURSUIT OF LIFESTYLE

The Filammon lifestyle embodies the life of comfort, function and luxury within the comforts of your own home.

We factor in the target demographic of our users with our three distinct ranges involving nine different interior styles and lifestyles.

Whether you are a family looking for a warm and functional setup, a young entrepreneur or couple going after that minimalist sleek and trending look, or you are kicking it in the penthouse with our aesthetic high-end products, we have everything you need to enjoy life to its fullest.

## PURSUIT OF DESIGN

Italy has always been recognised as being a world-wide trend setter and leader in design. The architect Luigi Caccia Dominioni claims "Quite simply, we are the best" and that "We have more imagination, more culture, and are better mediators between the past and the future." Italy today still exerts a vast influence on interior design and fashion design worldwide. Each year, designers from every corner of the globe descend on Milan for Design Week and Salone del Mobile, the world's most famous Interior Design Fair featuring exhibitors and visitors from one hundred and sixty five countries all over the world.

Quite simply, we are the best... We have more imagination, more culture, and are better mediators between the past and the future."
Luigi Caccia Dominioni (Italian Architect and Designer)

In a dynamic environment designs and trends will evolve over time, Filammon strives to provide timeless solutions, keeping up with the latest concepts and styles. With this principle in mind, Filammon has separated our designs into three main categories: Larenza, Vago and Fabio.

The three categories include nine distinctive interior designs known by designers all over the world. This shows the wide range of "look and feel" we can provide for your home or project with the flexibility to tailor the design.

# 03 COLLECTIONS 09 DISTINCTIVE STYLES 

1 // LARENZA GOLLECTION Scandinavian | Modern | Natural<br>2 // VAGO COLLECTION Minimalism | Zen | Contemporary<br>3 // FABIO COLLECTION Glamour | Noir | Industrial

Filammon Casa draws from a wide range of interior design inspirations where each of our three main categories link distinctively to three interior styles. Across our range, this creates nine different styles to derive from. This makes it easy for you, our beloved and valued clients, to choose a design solution tailored to your particular project and taste.

## OUR COLLECTIONS

LARENZA | VAGO | FABIO DESIGNER COLLECTIONS

Our designer brands and collections factor in only Italy's best designs and works. Drawing inspiration from a wide range of interior styles known all over the world, Filammon Casa \& Décor provides a wide range of design solutions to our clients across a vast range of project types. Filammon Casa \& Décor provide design work in the following spaces in your project:
Kltchen

LARENZA COLLECTION SCANDINAVIAN | MODERN | NATURAL

Fresh and Authentic - Your classic take on interior design with more freedom

[skandı ' neiviən]

A style that has been around since the end of the 19th Century, the Scandinavian movement has been in nearly every aspect of design since World War II. Notable contributors include: Alvar Aalto, Hans Wegner, Arne Jacobsen, and Eero Arnio.

Scandinavian modern design is functionality combined with aesthetics and innovative decor. The style is recognised by its neutral palette, natural light timbers and marbles on top of a white base. The look enables your space to feel warmth and a sense of harmony. The darker scheme provides accents of bold colour to incorporate into your design giving it a more modern look when paired with stainless steel appliances and darker stones, marbles and cabinetry.

## LARENZA COLLECTION

Scandinavian | Modern | Natural

## WHAT IS THE LARENZA STYLE?

When you talk about the Larenza collection, the feeling you should get as you walk into your home is fresh and welcoming. This collection is all about comfort, versatility and warmth - a breath of fresh air.

The Larenza look reflects mid-century modernism. With simple design and functionality at its core, the overall style is very clean with simple line work often paired with muted pastel accents and geometric patterns.

Start off with fresh whites as your base and start layering with neutral colours where needed. The style keeps it simple, often paired with warm greys, with splashes of pastel pale colour.

Build your warmth through light to medium toned timbers. Natural stones or white marble splash-backs and countertops provide contrast and a break between your light cabinetry and timbers.

- LARENZA COLLECTION -

## LARENZA LOOK \& FEEL

Warm colours of natural light timber pairs well with the off-white colours found in most homes. The style is recommended to be paired with plenty of plants, greenery or both to enhance the natural look and bring life into the area With certain fabrics similar to the throws or woven elements, it differentiates the look from the typical minimalistic effect thus giving the space more character.

## - LARENZA COLLECTION -

## - APPLICATION

Larenza will suit homes both in the rural and suburban areas. When paired well with décor, it can be used in your coastal homes as well with accents of blue and pastel colours. Within our décor range, sheer curtains or natural linen curtains can frame your windows and any fabric in the natural and neutral palettes on your upholstery can achieve any of the three styles listed. Paired with some throws and designer cushions, you can create a fresh and stylish space for you to relax and welcome your guests and family in.

A modern, clean look with minimal clutter and colour. There is no necessity for many bold colours; the heart of this design lies in the materials. Light timber wood paired with white joinery and stylish pendants with neutral accents in colour bought out by the accessories.

## ALTERNATIVE SCHEMES

The strong contrast bench top and cabinetry paired with the natural - grained rich timber joinery creates a different character compared to a softer look. The contrast creates a more modern and bold look.

A modular wall cabinetry and shelving system is available for your living areas or hallways. Using the same materials as the kitchens, these provide flawless integration to your overall design.

## - VAGO COLLECTION

MINIMALISM | ZEN | CONTEMPORARY
Clean, Sleek Simplicity - Less is more

## VAGO COLLECTION

Minimalism | Zen | Contemporary

## WHAT IS THE VAGO STYLE?

The Vago style is all about minimalism and a contemporary integrated solution with simplicity at its core. Clean lines, integrated appliances and hidden storage creates a zen space to enable clarity of the spirit, eye and mind as soon as you get home.

They key with minimalism is to make the space feel clean, orderly and not cluttered with too many furnishings, colour and accessories. Start off with a clean, contemporary white and add in a light, subtly grained timber.

The timber brings life and texture to prevent a clinical look. If you are after a more futuristic, sharp design, add in strong dark colors to provide the contrast you need for the space to pop.

White marble, smoked grey mirror splash blacks and subtle veined pale stone surfaces help bring life so the whites are not too overwhelming,

## VAGO LOOK \& FEEL

The Vago style does not have much colour in its base palette. Paired with either bold contrasting colours for a slick look, or warm timber for a more calming space, often the colours found will be in its accessories or surrounding furniture.

## - VAGO COLLECTION -

## - APPLICATION

Vago will suit homes and apartments in a more luxury range. Mostly found with a cool white base, the range is also available in champagne. This style is not so much linked with the monochromatic tones but more the minimalism. The reason a white base is used is because it generally makes a space - no matter how small - appear much larger and airy. If you want your home to feel fresh and airy with a futuristic luxury style, choose the Vago Collection for your project today.

## VAGO BATHROOM

The clean simplicity of joinery pairs well with our bathroom products.
The materials are available in a wide range of varieties

## WALK-IN WARDROBES

A mixture of glass and joinery, Filammon Casa products extend not only from the living and kitchen spaces but also to the bedroom. We provide this service so there is consistency across the project you will receive one flawless set throughout your design

# - FABIO COLLECTION 

GLAMOUR | NOIR | INDUSTRIAL Opulence brought into existence - the high-end luxury collection

Noir Glamour is a dark and smouldering look often compared to the "New York Penthouse Feel" or "Hollywood Glamour" paired with an industrial or metallic design feel.

This style is for high-end luxury, customers who want their home to have a bold statement with top of the grade materials and detail. Darker tones paired with metallic accents provide a sense of opulence

# FABIO COLLECTION 

Glamour | Noir | Industrial

## WHAT IS THE FABIO STYLE?

Inspired by classical luxury and the allure of European architecture, Fabio aims to hit you with that 'wow factor. The style is here for those who want to make a bold statement meant to capture and dazzle.

Utilitarian and edgy, we liken this look to the New York penthouse loft style. Making use of exquisite marbles, layering of mirrors and metallics - the aim is to create a luxurious, smoky and sophisticated mood.

The base is minimalistic and almost monochromatic. White can be used, however the majority of this style would consist of dark timber or matte black cabinetry paired with luxury marbles, stones and metallic accents.

The décor is very important for this look and there is not much warmth in this style. The darker theme has a certain elegance to it and the sheen of metallics provide the opulent feel. Not for the faint hearted, the aim of this style is to create a story - your story.

## - APPLCATON

Fabio is for those who aren't afraid to make a statement in their homes. Found in the luxury residential / commercial range and penthouses, everything about this range is about upgrading your lifestyle and glamour. Dark, bold colours with dark rich timber, stepping into the room will make you feel confident, trendy and sophisticated. Paired with our smart home technologies, your pad will be the talk of all who know you - live like a boss, feel like a boss and be the boss.

## BATHROOM PRODUCTS

The luxury range of bathroom products are available for all of our styles but complement especially well with our Fabio themes. Have the best products in your bathroom by partnering with Filammon.

## - FILAMMON CASA -

## PRODUCT FEATURES

## ITALIAN DESIGN HERITAGE

Style for Filammon Casa is a distinct concept where our joinery package communicates with its surroundings and enables users to interact with it. We believe customers should be able to choose a style to suit their personality, so with our extensive range, Filammon offers genuine design choices in Larenza, Vago and Fabio Collections bringing the "Made in Italy" Style into every type of design requirement at home or at the office.

With this philosophy in mind, Filammon has embarked on projects with leading designers, architects and internal development programs which assess current tastes and market trends.

## SUPERIOR QUALITY MATERIAL

Filammon has kitchen cupboard door and panel solutions smartly sorted with a diverse selection of product materials, finishes and styles sourced by Australia's most renowned, quality suppliers with local sourcing. With the diversity of colours, finishes and prints from ranges that are designed to work together, we pave the way for highly original and bespoke joinery designs.

All joinery doors and panels are proundly Australian made and owned and carry a limited warranty.

The mechanical accessories are sourced by a global top supplier in the industry. Our objective is to provide benefits to everyone that comes into contact with the finished joinery product, with all components precisely engineered and assembled. The lift, hinge, box and runner systems and four different motion technologies bring enhanced user convenience to the entire home.

## MANUFACTURING CRAFTSMANSHIP FOUND IN AUSTRALIA

The strong technical-know-how with experts and years of joinery experience has built up high competency across the board for Filammon to deliver products with perfection. Our operational divisions guarantee that the finished joinery product is all about quality.

The entire production method respects the care and attention to detail of traditional wood craftsmanship, combined with ongoing technological innovation in machinery \& equipment from top global brands. Filammon's commercial organisation takes full advantage of networking facilities, providing customers with maximum reliability and very responsive delivery times to meet the needs.

## EXPERIENCED CONSULTANT TEAM \& SEAMLESS DELIVERY PROCESS

Filammon Casa products proudly come from the minds of designers with years of expertise, but perhaps more important is our mutual interpretation of great design: elegant, well considered products that are timeless, trendy and an improvement to our lives.

Apart from our wide range of multifunctional Filammon Casa products, you can also receive professional advice about modern living and interior design at our display centre. Whether you are looking for living, dining, bathroom or bedroom solutions, we will find the perfect style to match your personality. When browsing through our products, there is a whole line of unseen possibilities behind everything you see.

To help and guide you, we have a dedicated and highly skilled team of designers and consultants that will advise you in the centre, or come to your home, and listen to your needs, visualising different solutions to help you make your dream home come true.

## - FILAMMON DÉCOR -

## CURTAINS \& BLINDS

## Quality Materials | Designer Prints | Functionality

Curtains, drapes and blinds have always have been important for homes. For both privacy and sun-shade you want your windows to be framed well, as it will be a function you will constantly see and be using. Tailored for your need and taste, only the very best fabrics, trims and hardware are used. Available in a huge range of designer fabrics, our custom curtains add sophistication, elegance and style to any space.

There are two different techniques we use to install our curtains and blinds, each with their own custom upgrades:

## CURTAINS

- S-Wave
- Pinch Pleat

## BLINDS

- Custom Roller Blinds
- Roman Blinds

## CUSTOM UPGRADES

- Motorised Curtain
- Motorised Blinds

Ultra modern S-Wave Curtains are usually made in a continuous - width sheer fabric, which means there are no vertical seams to interrupt the look of your new curtains. A stylish, contemporary look with soft smooth fold created by the heading and track ensures the fabric drapes beautifully in elegant waves.

- CURTAINS \& BLINDS -

Pinch Pleat curtains stack well when drawn open which makes the heading style perfectly suited for wider windows. The heading has stiffening tape sewn in with the pleats which makes this curtain style very stable for long-term good looks. It's important to allow enough fullness, with up to 2.5 times the window width to achieve that style.

Custom roller blinds and roman blinds combine good looks with flexibility and practicality. There's a wide selection of designer fabrics which will complement your interior décor and styles. The three range we provide are as follows:

- High-End Products Cotton x Polyester • High-End Products Linen x Polyester • Mid-Range Polyester

There is also a smart home range motor as an upgrade option for your curtains and blinds for even more functionality.

## CUSHION AND UPHOLSTERY

The Filammon Décor range provides you

emulate the style you are after with new designs coming from Italy to represent the latest of trends

## - FILAMMON DÉCOR -

## CUSHIONS \& UPHOLSTERY

Beautifully - Made | Attention to Detail | Your Own Taste

Fabrics produced by the Décor range are multi-purpose in use. Whether you want them on your walls, in paintings, framing your windows in the form of curtains or in cushions and upholstery, we can create it.

The fabrics are designed and inspired in Italy, then produced out to create dynamic and trendy designer cushions, or upholstery. Do you want to spruce up your space with some new bold furniture but don't want to spend the money to buy a completely new piece? Our upholstery service enables you to just re-skin your furniture for that look you desire!

This service is not always a necessity on projects, however it can prove very useful. If you choose one of our Casa styles, you will be able to match and create your custom design and look as a package with our other services.

## PRODUCT FEATURES

## ITALIAN DRIVEN FABRIC DESIGN

Post-wash fabrics and easy-maintenance methodology ensure anti-colour fading and size shrinkage after use.

## ENVIRONMENT-FRIENDLY MATERIAL

All products have passed Formaldehyde and Azo test conducted by SGS.
Coated and lined block-out curtains block out a large percentage of light and heat, with an environmentally friendly coating that is child safe.

## MANUFACTURER WITH PRECISION AND CRAFTSMANSHIP

We use the best-in-class R9500² Rapier Weaving Machines from the renowned Italian weaving machine company 'ITEMA' together with advanced Jacquard Machines with over 10,000 hooks from the world-leading French textile machinery solution provider 'Staubli'.

## INNOVATIVE MANUFACTURING TECHNOLOGY

Unlike the cost - saving process, to ensure the fabric's colour fastness, shrinkage rate and environmental friendliness meeting international standards, we dye the threads before weaving, with imported machinery and dye material. The unique extra process of underwater sand wash before completion ensures the fabric's robustness.

## STATE-OF-THE-ART WORKROOM

Advanced machineries with 'shape memory' functions are implemented to achieve automation in curtain-making in the fully owned production factory with Japanese QC System. The experienced sewing team have completed hundred of thousands curtain producing projects.

## EXPERIENCED AND INSPIRATIONAL CONSULTANT TEAM

3 years product and labour warranty gives you true peace of mind.

## HIGHLY CUSTOMISED WINDOW FURNISHING PRODUCTS

Meeting different design requirement in window shapes and size.

CUTTING-EDGE HARDWARE-SUPER SLIM \& SILENT TRACK
Fully controlled hardware production with special treatment ensures smooth use and easy maintenance. We also have a state-of-the-art concealed track design to incorporate into your projects for a sleek look.

## - FILAMMON DÉCOR -

# ACCESSORIES \& ADD-ONS 

Home Automation | Luxury Fireplaces $\mid$ Aesthetic Decorations

In additional to the joinery, appliances and soft material solutions for your home, Filammon Casa \& Décor has a range of additional accessories and add-ons. These include smart home upgrades to enhance your living with new innovative technology, which includes but is not limited to: Motorised overhead cabinetry, digital door locks, integrated sound and lighting solutions and corner drawers to make use of what was previously dead space.

In additional to this, we have a wide range of luxury fire places which use ethanol to operate. Stylish and easy to use, they bring warmth and light into your life with versatile and bespoke designs.

Accessories such as metallic trimmed coffee tables, lamps, vases, book shelving, décor and pendant lighting are all something we can offer to match with our packages. Paired with our custom wine cabinetry, cigar stands and whiskey cabinets, you can plan out your dream space with our accessories and add-ons.

## FILAMMON DIFFERENCES

QUALITY | TECHNOLOGY| INNOVATION | CRAFTSMANSHIP

## - FILAMMON DIFFERENCES -

## DESIGN QUALITY

Each Filammon design is a response to functional requirements. Joinery provides personalised solutions while accessories satisfy individual tastes and requirements. Filammon's skill is in its ability to engineer quality workmanship with the inspiration and heritage of Italian design and creativity while collaborating with renowned designers from across the world.

## MATERIALS

Filammon selects top quality raw materials that determine the collection's aesthetic excellence. The very best decorative panels, fabric manufacturing with precision, craftsmanship, mechanical accessories, a vast range of colours, design schemes and more are all available.

## THE SEARCH FOR RELIABILITY AND PRACTICALITY

Filammon goes to great lengths to ensure that its products will stand the test of time. Mechanical parts are carefully scrutinised: Drawer guides and cupboard door hinges are fully tested and precisely produced by the world's best provider, Blum, partnered with Filammon and installed as a quality finished product.

The quality of joinery does not depend on surface finishes alone. A beautiful and practical design that opens with ease and closes softly and effortlessly. Practical cabinets deliver enhanced user convenience to your home or office. They make optimal use of the space available and allow you to keep everything you need for specific tasks together with consultancy by our experienced sales team.

## TECHNOLOGY

Filammon guarantees that the finished design is all about quality. Working methods respect the care and attention to detail of traditional craftsmanship, combined with ongoing technological innovation and integration such as motorised cabinet solutions to equip your furniture with a mechanical or electrical opening/closing support system.

Live Smarter! KASTA home automation systems provide the simplest and most affordable way to seamlessly integrate smart controls into your home. Create your own 'Scenes' by grouping your lights and other devices, and configuring them to function how you want, when you want. What's more, because KASTA is modular, you can easily add to your system in the future. The possibilities are endless.

## PROUDLY AUSTRALIAN MANUFACTURERS \& CRAFTSMANSHIP

In order to guarantee optimum quality control throughout production to delivery, Filammon manufactures in Australia. Component parts, raw materials, and accessories are selected and purchased from leading international suppliers with Filammon's strict guidelines and standards. It is underpinned by humble craftsmanship and expertise, all of which are fundamental prerequisites for a company constantly seeking to meet the needs of clientele.

## INTEGRATED DESIGN AND DELIVERY SOLUTION

By partnering with top quality and renowned brands from around the world in different categories, at Filammon, we provide an integrated solution of product packages, design and delivery, involving European appliances, joinery, decorative products, bathroom products, flooring, home automation and more to bring you the lifestyle you are longing for. Our services capture the entire process from start to finish including consultation, design, production, delivery and post sales customer services.

## LONGEVITY

Filammon products are the highest quality from both an aesthetic and functional point of view, manufactured to guarantee long-lasting reliability. Buying a Filammon product is an investment in more ways than one. Our diversified collections with well-packaged products are presented with distinctive inspirations, designs and styles. It is not the result of passing fads, but has an aesthetic quality that will guarantee that each piece remains stylish.
