i.h.t Lifestyle

7.00am Good Morning

Awoken by the mellow ocean sounds of your digital alarm, you are filled with the aroma of Arabica coffee while the soft rays of the early sun blanket your room in a warm light.

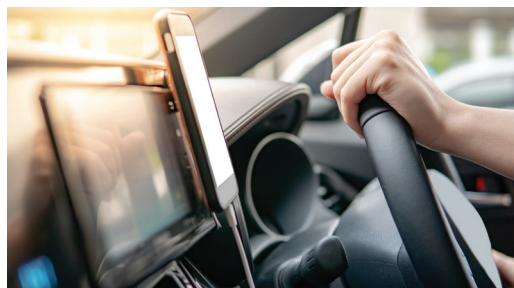

8.30am Leaving Home

Vacuum robot activated. Security cameras and sensors activated. Pet feeder activated. You step through your front door stress-free.

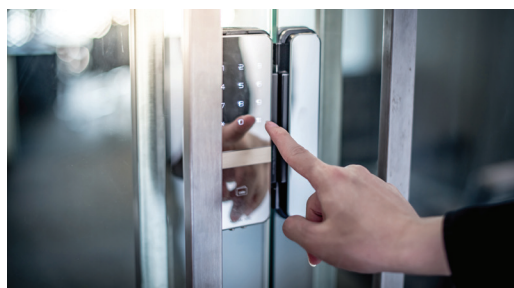

4.30pm Heading Home

Wrapping up things in the office, you switch on the central heating and prepare your bath.

5:30pm Welcome Home

As you open your front door you are greeted with a rush of warmth. Your bath is ready and the your favourite TV show is on. Home sweet home.

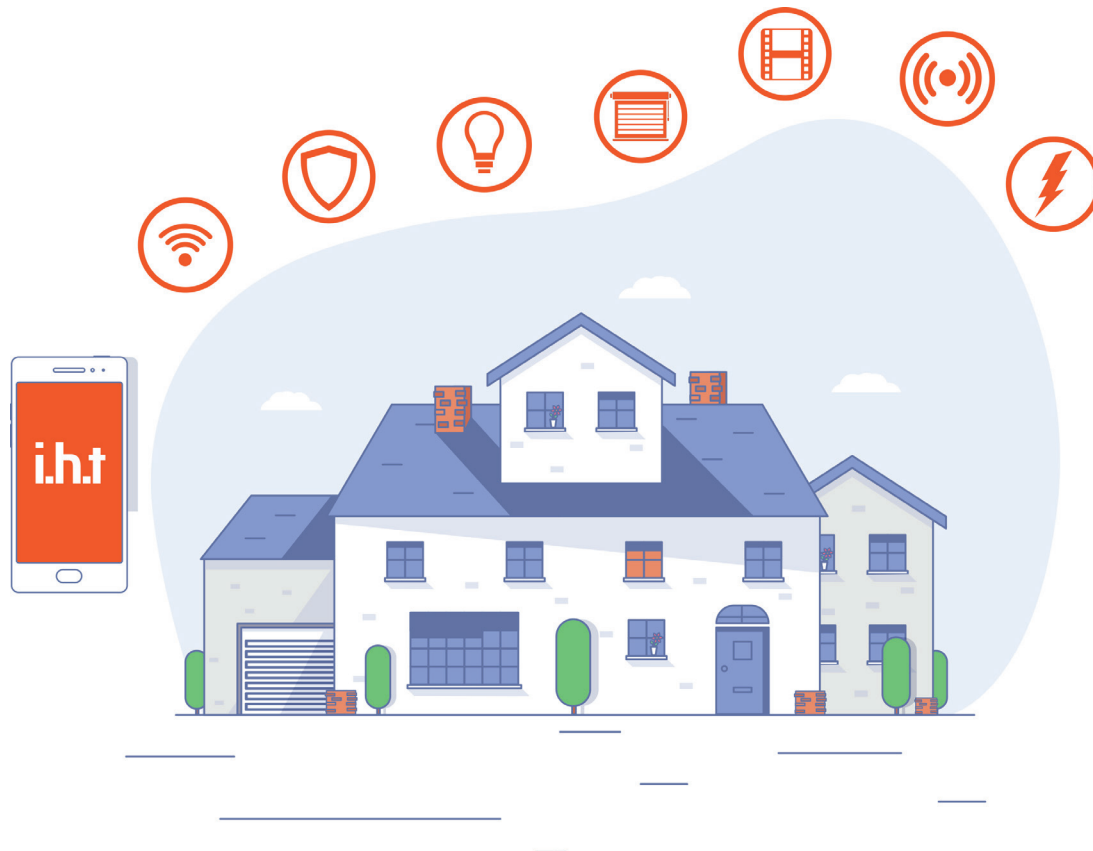

10.00pm Goodnight

After an exhausting day, you snuggle into bed. Within a fingers touch the lights are dimmed and the curtains are closed, and you fall asleep.

Introducing i.h.t

Lifestyle for the New Era

In the midst of a technologically driven era, the rise of smart devices driven by Internet of Things is shaping the way we live our lives. Living an interconnected and efficient lifestyle has never been more important as our daily lives become busier. At the threshold of a frontier of smart home technologies the need for intelligent innovative solutions to simplify and ease the monotonous routines of daily life is where i.h.t comes into the picture.

About i.h.t

Since its inception, iNNi Home has been committed to developing, sourcing and supplying household and home-ware technology that enhance our daily life experience. Our team at iht is dedicated to providing elegant home solutions to make daily routine effortless and seamless so that you can focus on the things that matter to you most.

What i.h.t Offers

iNNi Home has made it simple for you with an in-house team with experience across property, interior design, appliances and home automation technology and come together to provide a full service from start to finish. Our integrated supply and install services provide a problem solving and cost-effective solution to help you select products with exceptional qualities and cutting-edge technologies.

Product Range

Security

Our security solutions add a layer of safety to your home. From security cameras to door lock and intercom systems, our devices will cover every aspect of your surveillance and safety needs to put your mind at ease.

Lighting

Smartphone connected lighting systems with millions of colours and customisations allow you to adjust the lighting to suit the ambience and atmosphere. Smart lighting control systems are also employed to maximise energy savings, satisfy building codes and to promote energy conservation programs.

Curtains and Blinds

Take control of the natural lighting and privacy in your home with i.h.t's smart curtains and blinds whenever and wherever you are. Match your curtain with the sunshine to keep the best brightness and temperature situation at home.

Climate Control

A universally-integrated system allows individuals to monitor their energy usage across a range of different devices. In our journey to building a greener planet, each person can do their own part to track and minimise their environmental footprint.

Pet Care

i.h.t's Smart pet devices allows busy individuals to provide the best care for their pets to ensure they remain in the best health. Accessibility and remote functionality means that your pet is taken care of whenever and wherever you are.

Small Appliances

Part of our vision is to automate and simplify daily lives through technology. Our range of smart devices such as coffee machines, vacuum robots and humidifiers are designed to make your life effortless and fluid.

The i.h.t Advantage

Our Vision

An Integrated One-Stop Shop

Our products. Your home. We provide a holistic solution that caters to every aspect of your lifestyle needs with the newest and most sophisticated technology in the market.

Installation and Services

Our team of readily available and trusted professionals provide that extra step. Installation and servicing are included in addition to our products to provide a thorough and all-inclusive service from purchase to usage of our technology.

Certified for Australian Standards

Your safety is our priority. We have ensured that our products meet the following required Australian standards so that you and your family can use our devices at peace.

Local Support and Supply

With a dedicated local team comes local hours and local people that know your needs and requirements. We operate in your time zone with a showroom in your area (Waterloo).

Google / Alexa Compatible

All of our products are smart-assistant compatible. Under one smart speaker, you will be able to integrate all your other devices with ours.
