

INSERTING YOU TUBE VIDEO LINKS

Step One

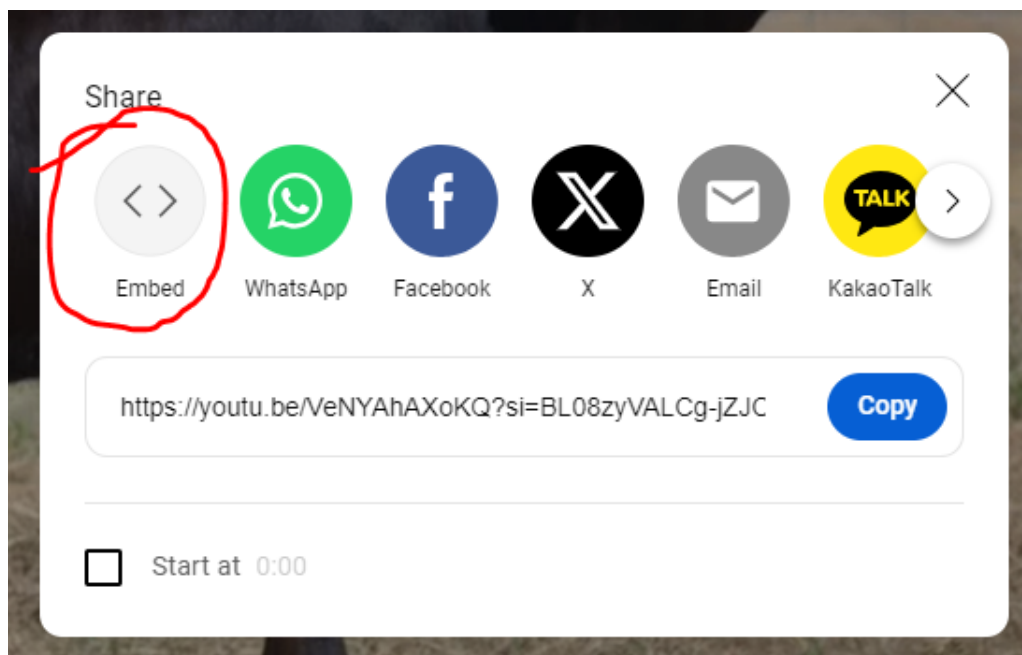

One at a time, bring up each individual lot in the sale list (at right in screen shot below).

Then click the “Share” button below the image displayed.

Step Two

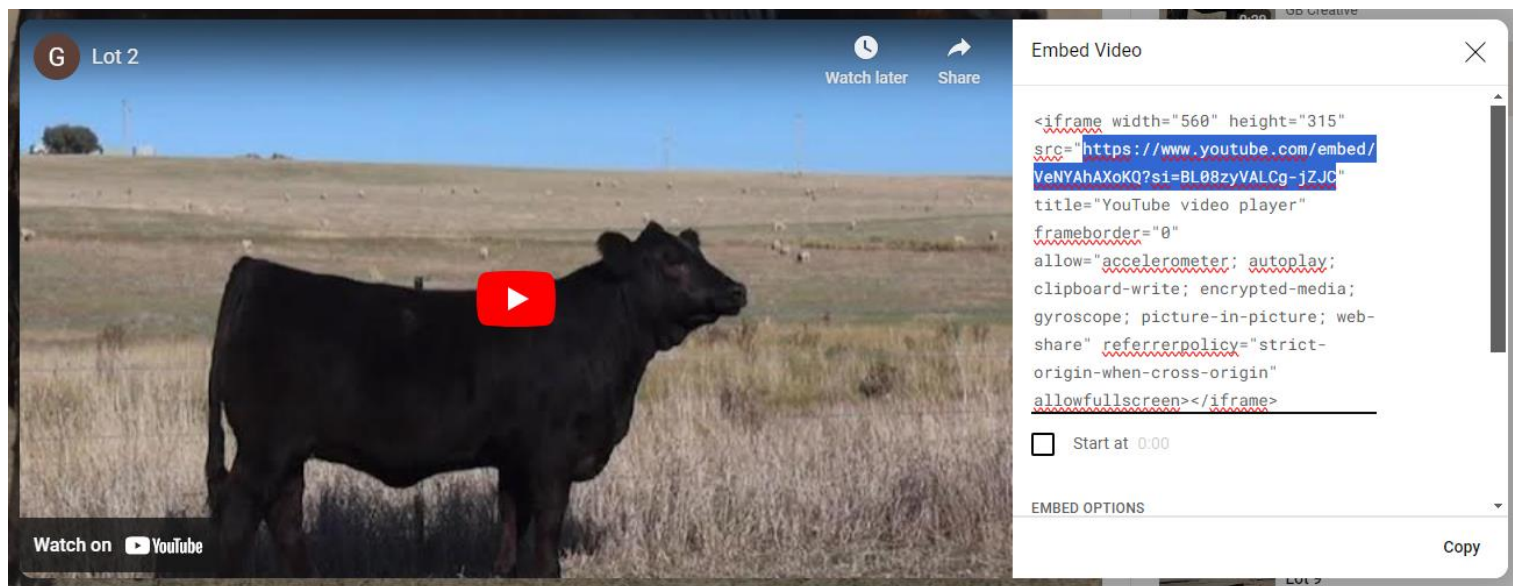

Click the “Embed” option. **DO NOT use the URL displayed beside the “Copy” button.**

Step Three

Copy **ONLY** the text (URL) **highlighted** as indicated below. It will be the URL between the quotation marks.

Use **CONTROL + C** to copy this link. NOT the “Copy” button displaying, as this will just copy everything.

This is the URL link you paste into ILROnline. NOTHING ELSE.

Step Four

Paste this into the Video field in ILROnline for the relevant animal and Save.
