

Why Pre-arrange?

Death is a reality of life that many of us find hard to accept or come to terms with and so we often go through life trying to ignore death, in the hope that it will not happen.

Consequently, when it does happen we can be unprepared for the important decisions and arrangements that need to be made.

By recording the information and funeral details that you would like included in your funeral service, the burden on others is eased and your requests are made known.

Pre-paid Funerals

A Funeral Trust Plan allows you to set money aside, in trust. For this option, please talk to one of our staff members how to go about this.

Where to from here?

One of the first steps you can take is to spend a couple of minutes filling out this form. Once completed, keep it in a safe place with your personal documents and be sure to tell at least two others where to locate it. Alternatively, if you prefer, we can store the information for you until it is required. Once again, we suggest you tell someone close that we are holding the information for you.

If you require assistance, please feel free to contact us and we will be more than happy to make arrangements to meet with you, even in the comfort of your own home if necessary.

Now enjoy life!
