Celebrated as one of the world's most diverse cities, Toronto attracts people from around the globe, including regions often inaccessible to missionaries. The people in Toronto are lost and are looking for something. We know that the only thing that will satisfy them is the good news of Jesus Christ. During our time in Toronto, we will be joining in the work of the International Mission Board missionaries who work among some of these strategic people groups in the city. We will also be working with the North American Mission Board team, which is engaged in church planting work in the city. Working with these partners, we get to be a part of both international work and church-planting work through evangelism, New Year's outreach events, etc.
