

OVERVIEW

RP Consulting provides research, evaluation, and strategic planning services that help organizations address complex challenges through practical expertise in:

- Strategic Planning & Policy Alignment
- Stakeholder Engagement & Community Insights
- Data Integration & AI-Driven Analytics
- Program Evaluation & Impact Measurement

DIFFERENTIATORS

- Deliver faster, more reliable insights by integrating AI-driven tools that reduce reporting turnaround time by 40% and enhance data quality across research projects.
- Translate research into practical strategies that have influenced \$10M+ in community investments and supported measurable improvements in funding stability, workforce development, and program outcomes.
- Improve data accuracy and stakeholder confidence through AI integration, ensuring evidence-based results that informed decisions for eight organizations.
- Drive cross-sector strategies in health, transit, philanthropy, and government shaping initiatives for clients.
- Develop metrics and accountability frameworks, ensuring measurable results across four different sectors.

COMPANY DATA

RP Consulting is a research and strategy firm that specializes in research design, program and project evaluation, stakeholder engagement and strategic planning for nonprofits, government agencies, and small businesses.

We combine traditional methods such as surveys, interviews, focus groups, and small-group discussions to surface insights, and integrate AI-driven analytics to deliver faster, more reliable insights. Our cross-sector experience allows us to identify patterns, share lessons, and design strategies that work across industries.
