## Reference Laboratory Charges

Chapel Hill Children's Clinic contracts with outside reference laboratories to perform tests for diagnostic purposes. We, as your physicians, sometimes need to send out lab work when we feel that the services are in your child's best medical interest. **These tests will be billed to you or your insurance company directly by the laboratory.** Any costs that are not covered by your insurance company will be your responsibility. We do not know what your insurance company will and will not cover. Any questions regarding bills you may receive from an outside laboratory must be directed to the laboratory. We at Chapel Hill Children's Clinic can not answer questions regarding bills from outside labs. Chapel Hill Children's Clinic does not accept responsibility for any costs incurred through outside reference laboratories.
