## Student Spotlight: Cassandra Nickell

Hello, my name is Cassandra and I was blessed to find Too Far Out Farm! I was a struggling Christian in need of healing. I came to the farm about a year ago looking to find God and find courage in horses again as I had a bad experience and was terrified, but yet I loved them so much. Deb taught me how to be brave and how to be a leader. I have grown a lot spiritually, mentally and physically. I even got my dream job as a vet nurse and with believing in myself and trusting in God, I want to take Vet Tech classes. Deb, Mike and the horses have been a blessing in my life, and I am truly grateful.

## Agency Spotlight: AICDAC

The day in July was a hot & humid one! Our friends at the Armstrong Indiana Clarion Drug & Alcohol Commission (AICDAC) braved the heat and attended a day-long, Serenity Retreat here at the farm with Recovery Coach, Deb Peterson, who was assisted by the TFO Farm volunteer staff, and of course, the TFO Farm Herd. The day was filled with team building, reflection, and lotsa horsing around. It's one thing to say, "Let's relax & take it easy," but how many of us really do? We emphasize working as a team or functioning well as a family, yet do we actually know what that looks like? How hard is effective communication? Are you aware of how you come across to others? As the managerial staff of the AICDAC learned during their Serenity Retreat, lessons from the herd reveal to us keys to our behavior. A healthy herd animal accepts us as we are, observes what we often miss, and reflects important feedback.

Lessons from the herd are available in group sessions, or in private. We will also tailor a custom retreat for your group, team or family, similar to what the AICDAC experienced in July. Click here to [book your FREE first session today!](#)
