

Got this much polystyrene?

Commercial Polystyrene Recycling

A practical, sustainable solution for your business's EPS packaging.

The DocShop provides collection and recycling of expanded polystyrene (EPS), helping Victorian businesses reduce waste, free up space and support a cleaner tomorrow.

Reduce bulky waste on site

Free up valuable warehouse space

Divert material from landfill

Support a circular economy

1

COLLECTION

The DocShop provides pickup of your used EPS packaging from your business premises.

2

SORTING

Suitable expanded polystyrene is separated and prepared for processing.

3

PROCESSING

The EPS is shredded and compacted using our recycling equipment, significantly reducing its volume.

4

RECYCLED MATERIAL

The compressed material is sent to recycling partners to be reprocessed into new products.

Servicing Melbourne and regional Victoria
