

The Fluid End. Reimagined.

V-SERIES MAX

Front Access Cover

A first of its kind design that improves block fatigue performance via engineered fasteners and an optimized bolt pattern

Cross-Bore

Features improved geometry that's optimized to reduce stress and increase fluid end life

Quick Cap

Designed for speed, safety, and simplicity, Vulcan's new Quick Cap makes seal changes faster than ever - taking approximately 15 seconds to complete

Engineered Fasteners

Improves user experience during maintenance with a unique flat face design

Auto Lock Bolt

Innovative system that automatically prevents the packing nut from loosening during operation while remaining on FE

Knuckle Threads

First engineered knuckle threads on packing nut to resist fatigue and are more debris tolerant

LOWEST ACTUAL TCO

GREATER CORE PROTECTION

EASIER TO MAINTAIN
