
THE FATHERS WAREHOUSE

FATHER'S Warehouse

Come and hear the amazing story and journey of the **FATHER'S WAREHOUSE...**

The Father's Warehouse enjoys serving the Great Commission to support various ministries all over the world. They work with and seek the assistance of all **Engineers, Tradesmen, Supervisors, Logistics workers, Automation partners and Business owners** working in industries utilizing electrical and electronic hardware.

Before the Father's Warehouse was even established, Mike Abbott (now the General Manager), visited an orphanage in Myanmar in 2008. The orphanage then housed 11 children living in severe poverty, with their caretaker earning just \$60 a month. Mike and Clive Hebbard were instrumental

in arranging financial support for this orphanage. When the need to replace their leaking bamboo housing arose two years later, Mike began brainstorming a way to provide the \$20,000 needed for a proper building. Mike had the idea for the Father's Warehouse when he was

working as an Electrical Technician in the Power Generation industry. This idea was simple: take redundant (but functional) electrical parts that would otherwise be wasted, and resell them to raise the money needed. Mike acquired parts and listed them on eBay — they quickly began to sell. As more parts were donated, a need for storage became urgent and an extension was built onto the shed in Mike's back yard.

Since 2010 the Fathers Warehouse has raised money for Missions and the spread of the gospel through sales of donated new and used **redundant control systems, PLCs, VSDs, relays, transducers, transmitters, in fact almost anything electrical** etc. rather than seeing them go to waste.

The warehouse relies entirely on contacts within industry for its success, to be its eyes and ears in identifying and assisting with the rescue and acquisition of any redundant hardware that can be on-sold. You can help us by being alert to any **plant upgrades, project failures, plant closures, and hardware removal** in your place of work and letting us know about it.

The Father's Warehouse was registered with the ACNC in 2015. Since then, it has become a recognized charity and world-wide Power Seller on eBay.

Visit them on their website to see their story www.fatherswarehouse.com. Contact them through the website or email directly on info@fatherswarehouse.com.

The Father's Warehouse is located at 8 Crompton Rd, Rockingham W.A. and is run by a board of Christian directors.
