**Liberty**  
Retractable Awnings

## FEATURES

### Adjustable shoulder design offering greater pitch.

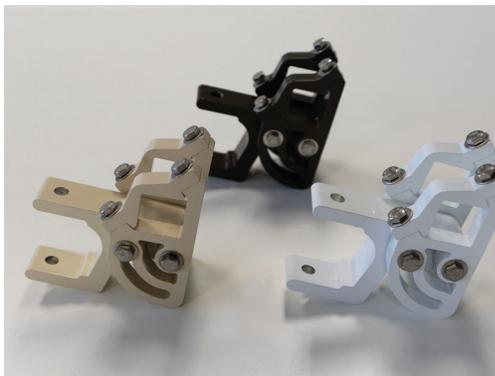

Liberty Retractable Awning use a non spring loaded shoulder with a simple two bolt adjustment, offered as a cost effective option. The two bolt system allows for easy manual adjustments: one bolt serves as the pivot and the other locks the angle in place. The Liberty offers a greater range of pitch angles compared to our spring loaded design, making it ideal for both business and residential applications. Its simple, durable design and requires minimal maintenance.
