

One to one Story Sharing Guidelines

Turn and find one partner. Make pairs, so everyone gets the chance to listen and to share.

Sit or stand so that you and your partner are looking at each other face to face.

One person will be Partner A and one will be Partner B.

Partner A will go first and will have 2 minutes to share. When 2 minutes passed, you will hear a signal. This is the time to switch, so Partner B will share.

When it is your turn to speak, offer your authentic story, using details and emotions.

When it is your turn to listen, create the space to welcome the story of the other as a real blessing.

When you both have taken a turn, thank each other for the gift of sharing.

Embracing Evangelism

Throughout this adventure, we will explore evangelism as a spiritual practice rooted in joy, gratitude, and holy curiosity; a practice through which we seek and speak of Jesus' loving presence and invite other people to celebrate God's life and love for them.
