FOR IMMEDIATE RELEASE

Transitional Equity Consultants Advises Northwest Podiatry Center on Successful Transaction

Kansas City, KS January 16, 2026

Transitional Equity Consultants (“TEC”) is pleased to announce the successful completion of a transaction involving Northwest Podiatry Center, a leading multi-clinic podiatry practice serving patients throughout Chicago, IL.

Northwest Podiatry Center has built a strong reputation for high-quality, patient-centered foot and ankle care, supported by experienced providers, a loyal patient base, and well-established clinical operations. These strengths made the practice an attractive opportunity for a partnership.

TEC worked closely with Dr. Greg Bryniczka and Dr. Adam Bryniczka over a multi-year period, advising them on preparation, and market positioning to ensure the practice was fully prepared for a successful transition. This long-term approach ultimately resulted in a transaction that met our clients’ objectives and preserved the legacy they built together.

” We are so pleased to have had the opportunity to work side by side with Greg and Adam. I considered it an honor to work closely with them to achieve their goals, I wish them nothing but success.” Said TEC Co-Founding Partner Sonny Crumpler.

“We were extremely pleased to represent Greg and Adam Bryniczka,” said JR Rotarius, Managing Partner, Transitional Equity Consultants. “Their commitment to building a high-quality practice over generations was evident in every aspect of the business. This transaction is a great example of how thoughtful preparation over time can lead to an outstanding outcome.”

The Bryniczkas expressed appreciation for TEC’s guidance throughout the process, noting the importance of having a trusted advisor who understands both the business and personal considerations involved in transitioning a family-owned medical practice.

About Northwest Podiatry Center

Northwest Podiatry Center is a comprehensive podiatry practice providing advanced medical and surgical care for foot and ankle conditions. The practice is known for its clinical excellence, patient-focused approach, and long-standing presence in its community.

About Transitional Equity Consultants

Transitional Equity Consultants is Merger and Acquisitions consulting and advisory firm specializing in representing lower middle-market healthcare and service businesses. TEC partners with owners well in advance of a transaction to help them build value, prepare for a transition, and achieve optimal outcomes at closing.
