

# PREPARING FOR SPRING

## The Challenges of Spring:

- Continuing instruction while also preparing for assessments
- Lack of individualized practice opportunities
- Lack of designated space for practice or discussion in the classroom

## Derivita Digital Solutions:

Derivita makes the Spring easy for teachers and students with a full suite of capabilities built to ensure students' confidence and success:

### Derivita Math Item Bank

The "remixable" Derivita Math Item Bank is equipped with 75,000+ math test items that cover content from 6th grade to Calculus III with **varying ranges of difficulty** and **item interactions** aligned to most state tests.

### Question Randomizations

Practice tasks in the Math Item Bank come with 10's-100's of randomizations, so students can test themselves on the same concept with different parameters - **allowing them to master the concept.**

### Immediate, Personalized Feedback

Give your students instructor feedback as they work through a practice math problem with **immediate and personalized** "nudges" to push them in the right direction along with **worked solutions.**

### SpotCheck! For In-class Practice

Easily create daily practices that assess your **entire class in real time.** Increase in-class engagement by reviewing student submissions as a whole class, separating the class out into small groups, or individually with each student.
