## MINIMUM SERVICES

The Minimum Services charge represents the minimum non-declinable services required to facilitate the disposition of a deceased person, whether by cremation or burial.

This minimum service charge is applicable to every family we serve and includes transferring the deceased from the place of death (or Coroner's Office, hospital, airport, etc.) to our holding room, where the deceased will be placed in a casket\* of your choosing and securely held until the necessary documentation is completed for burial, or cremation as applicable. Once the required documentation is ready (i.e. death has been registered and if applicable, the Coroner's certificate for cremation has been obtained), the deceased is transported in a service van or SUV to the cemetery, or crematorium facility at the earliest practical opportunity or at a scheduled time, as applicable.

Additional fees may apply for mileage beyond 50 kms, pacemaker/radioactive implant removal and pallbearers (burial only)

It is our policy that human remains be identified whenever possible. The identification may be made by anyone who knew the deceased, including a relative, friend, neighbor, co-worker or clergy person. While identification of a body is possible with the minimum required preparation, you may wish to consider opting for "basic preparation of remains" or embalming, as it might afford a more peaceful final viewing experience. Embalming is not legally required but may be recommended to preserve the body between the time of death and final disposition. One of our funeral directors will be able to guide you on preparation options and make recommendations based on the condition of the body and the expected service needs.

### **Visitation**

These are informal gathering periods that allow family and friends to come and pay their respects and offer comfort to the grieving family. Suggested visiting hours are 2:00 p.m. - 4:00 p.m. and/or 7:00 p.m. - 9:00 p.m.

### **Funeral Services**

This includes services, rites and ceremonies with the body present in a casket. A funeral service can be religious or non-denominational and can be held in various places, including in our chapel, at a place of worship, a venue such as a club or hall, or at the graveside.

### **Memorial Services or Celebrations of Life**

This is a service to commemorate the deceased, which takes place after the body has been cremated. The cremated remains may or may not be present, as preferred by you, a framed portrait and personal mementos might also serve as a focal point during the memorial service.

### **Receptions**

We offer a beautiful facility in which families may gather and receive guests for a luncheon after the funeral or memorial service. Our reception room accommodates up to 200 people.

**For Cremation:** A body must be presented to the crematorium in a rigid, leak-proof casket that is made of a  
combustible material, such as wood or cardboard. Caskets containing non-flammable, hazardous material,  
chlorinated or fiber-reinforced plastic, other than incidental metal, cannot be used for cremation. We offer a  
selection of inexpensive caskets below that are suitable for cremation.

The following caskets are suitable for cremation; all caskets are standard size unless otherwise noted.

## VAULTS & GRAVE LINERS

Outer burial containers listed below are for standard adult size caskets. Oversize vaults are available to accommodate plus-size caskets. Price includes grave set-up.

You do not have to purchase a vault unless the Medical Officer of Health has made the use of vaults and grave liners mandatory in the entire cemetery. A cemetery operator may designate a specific area in the cemetery where vaults or grave liners are required; however, the operator must have another area where vaults or grave liners are not required, so that consumers have a choice. A vault or grave liner may be recommended when there are environmental conditions such as poor drainage, or for practical or aesthetic reasons.

Nonetheless, we are pleased to offer the following selection of products in a range of prices and materials to suit your preferences. If the urn is to be placed in a columbarium niche at a cemetery, you must make sure the urn you select will fit. Please speak with one of our funeral directors for assistance. ## **PAYMENT, FINANCING & FUNDING**

### **For services at time of death:**

Payment is due within 30 days of signing the contract, beyond which interest will be charged at a rate of 18.5% per annum (APR). Payment may be made by cash, cheque, debit and most major credit cards. Payment plans are also available to meet most budgets. Financing charges apply to payment plans.

Financial assistance for funeral, burial and cremation services is available through various governmental agencies, to those who qualify.

### **Pre-payment in advance of need:**

For services that are being arranged pre-need, we offer two funding options when prepaying services or supplies:

**Trust:** You pay for the services and supplies at today's price and we will place your money in a trust account, where it will accrue interest until the prepaid contract is fulfilled (when the services and supplies are delivered). Pre-payment can be made by Void cheque or Pre-authorized debit form. Funds are held in the purchaser's name.

**Insurance:** You may purchase an insurance or annuity policy through us, where the proceeds of the insurance/annuity policy will be used to pay for the services or supplies at the time they are delivered. Payment may be made by cheque for single payment, time payment plans may be made by Pre-authorized debit form. The policy is held in your name and assigned to the funeral home. Terms, conditions and cancellation policies are set by the Insurance Company.

### **Guarantee:**

When paid in full in accordance with the payment terms set out in the prepaid contract, the prepaid contract is guaranteed. The total payment(s) made plus interest/growth earned will be applied to the future price of the services and supplies. If the total payment(s) plus interest/growth earned are insufficient to cover the total future price of the prepaid services and supplies, we will absorb the difference as a loss. Any funds in excess of the total future price of the prepaid services and supplies will be returned or applied toward additional services, supplies and disbursements purchased at the time of need, as applicable. Conditions apply. Any changes to the prepaid contract may result in the prepaid contract being null and void and a new contract being executed with current pricing at the time changes are made.

Additional information about payment, financing and funding options is available upon request.
