**VISITORS – JIM ROGERS, DEPARTMENT OF CHIEF MINISTER & CABINET; IONA
RAY, GOVERNMENT ENGAGEMENT COORDINATOR, GALIWINKU, NIAA**

**SHANE MARSHALL, DIRECTOR TECHNICAL & INFRASTRUCTURE SERVICES; JADE AH
WANG, TECHNICAL OFFICER**

AGON Environmental consultants have now produced a final assessment report. Based on the recommendations of the report, the Chief Minister's Office is now working out a short term (12-18 months), mid-term (2-3 years) and long term plan for managing risk. A draft plan will be produced in 2 weeks' time, especially for actions for the next 12 months. The challenge is that there is not one single stakeholder responsible for cleaning up asbestos and covering the costs of clean-up. Jointly, stakeholders might need to look at public signs, air monitoring during the dry season, and scheduled clean-up of the sites. Identifying a temporary storage site in Galiwin'ku will assist in facilitating the clean-up and minimise costs.

It's important to consider the priority areas for clean-up, those areas where there is high public use and high pedestrian areas.

It's also important to share the information with all of the community so that people, especially children, are aware to not touch asbestos or play with it.

GENERAL BUSINESS

10.2 COMMUNITY ASBESTOS UPDATE

SUMMARY:

149/2021 RESOLVED (Melissa Campbell/Don Wininba)

That the Local Authority:

- (a) Notes the Community Asbestos Update, particularly the initial recommendations with regard to the asbestos in Galiwin'ku.**
- (b) Supports a temporary licenced storage area at the current land fill site.**
- (c) Support Indigenous employment and training for the asbestos removal project.**
