- Smart home- WIFI

WxDxH: 595x580x850mm

## HEAT PUMP DRYER

Experience Midea Heat Pump Technology

### DRY MORE EFFICIENTLY

Motor drives the impeller to generate circulating air. The compressor works with heat exchanger to have air flow heat, and then goes into the inner drum to dry clothes.

### WOOLMARK

No Shrinkage after wash. Expert in washing wool fabrics which makes wool soft and glossy after washing cycle.

### HYGIENE FUNCTION

After drying is completed, the inner drum will remain with the same temperature for more than 30 min to ensure effective sterilization.

### QUICK DRY

Finish drying in the time of having breakfast, taking a shower or watching just an episode.

Images are for illustrative purposes only. Information and specifications are accurate at the time of print and subject midea reserves the right to change without prior notice.

## HEAT PUMP DRYER

MIDEA CONSIDERATION IN EVERY DETAILS

**MD200H80W/(WW)  
8KG DRYER**

**Features:**

- Inverter Quattro
- Lunar Dial
- 20 mins Quick Dry
- Dry Time Adjust
- Heat Pump Technology
- Gentle Care
- Hygiene Function
- Energy and Time Saving

WxDxH: 595x675x845mm

## Reasons to choose MIDEA Heat Pump Dryer

### LUNAR DIAL

Integrate the functions of both knob and screen display.

### HEAT PUMP

Advanced heat pump technology provides gentle care and energy saving for consumers.

### HYGIENE

Eliminate most of the common bacteria and better protect health.

### ANTI CREASE

Drum will keep rotating after the cycle is completed to prevent wrinkles cause by piling.

### AIR FRESH

Fresh airflow takes unpleasant odors away and bring nice scent instead to refresh clothes.

## WASHBOT

### WASHBOT

WBMF310  
10KG WASH / 7KG DRY

#### Features:

##### Washer

- TurboFoam Wash
- Air Fresh
- AI Smart Control
- Auto Dose
- Silver Ion Cold Wash

##### Robotic Vacuum Cleaner

- Anti Tangle with Autocut Technology
- Hot Air Mop Dryer
- 10,000pa Vacuum Suction Power
- Edge Cleaning
- AI-Assisted High Speed Mapping

## TOP LOAD WASHER

### AUTO CLEAN

Auto clean cycle is automatically activated during drain process, ensuring a clean and safe washing condition.

### HYGIENE

Advanced cleaning and sanitization. Prolonged washing time, strengthened washing beats and water flow.

### 15 MIN QUICK WASH

A cycle for small loads of laundry will be finished within 15 minutes. Never in a hurry, and always be at your best.

### AIR FRESH

Air fresh design can prevent bacteria growth and smell caused by long-time moisture inside tub.

Images are for illustrative purposes only. Information and specifications are accurate at the time of print and subject midea reserves the right to change without prior notice.

## TOP LOAD WASHER

### One-Touch Smart Wash Just **Power On** and **Press Start**

The Fuzzy Logic is activated to weigh the laundry. After calculation, program and water level accordingly are accordingly selected, offering you a worriless laundry experience.

## MODERN DESIGN

with efficient functionality

**Lunar Dial** - Integrated with program display and process tracking, Lunar Dial makes all the washing status easy to find.

**Softener Grid** - The independent grid designed for softener makes it possible for softener dispensed by step.

**Soft Close Matte Glass Lid** - Soft-closing lid-Elimate the slamming sounds ; Reduce the risk of pinched fingers or hand.

## MULTI DOOR FRIDGE

### PLATINUM FRESH

- Deodorization rate >99%
- Antibacterial rate >99%
- Prolong Air Filter Modular

### INVERTER QUATTRO

- Fast response to cooling demand
- Less energy consumption
- Make temperature stable

### SMART SENSOR

- Detects temperature and adjust fridge for faster and more accurate cooling, keeping freshness.

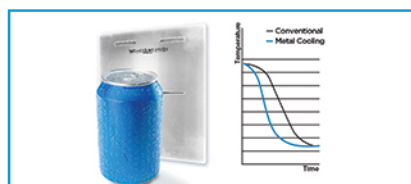

### VARIO BOX

The Vario box with temperature sensor and separate air duct, through the external digital control panel.

### MULTI AIR FLOW

The multi-layer air dust design, by the method of stratified airflow ensure the inner environment of refrigerator more stable temperature.

### METAL COOLING

It helps to maintain consistent temperature in the fridge. It prevents the loss of the air when the door is open.
