

How to download STARI materials (or [watch this video!](#))

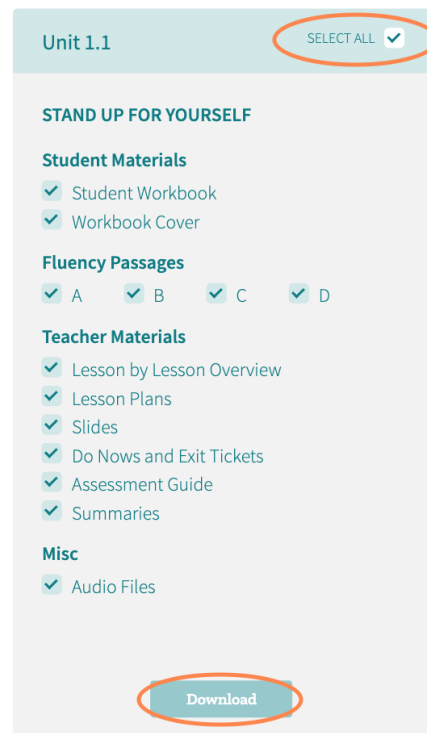

- 1 Go to access.serp.institute.org/stari & select 'sign up' to register for a free account.
- 2 Determine what **series** you will be using. STARI has four **series**. Each Series has three units, which is enough material for one full school year. (More info [here](#)) We generally recommend:
 - Series 1: 6th Grade
 - Series 2: 7th Grade
 - Series 3: 8th-9th Grade
 - Series 4: High School
- 3 Click on the series you will be teaching.

- 4 Within that series, always start with Unit 1!

Click the "Select all" box in the top right corner of Unit 1.

Then click Download to download all the files for that unit. All selected files will be downloaded in a zip file.

Prefer to purchase printed STARI materials instead? Consider a [bundle order](#) including curriculum materials, literature and professional learning.

You may email info@serpinstitute.org with any questions.
