

Hepatitis

**Many people with
Hepatitis C do not
know they are
infected. It is
important for people
to know their status
by being tested.**

Vaccination

There are several types of Hepatitis B vaccine available in Australia including combination Hep A and Hep B vaccines.

Vaccinations for Hepatitis

A and B are available at NTAHC's fast and free peer-based Hepatitis testing and treatment clinic every Thursday.

Hepatitis

A

**Hepatitis A vaccine
is available for both
adults and children
and is safe and
effective in
preventing illness
from the virus.**
