

Sexually Transmissible Infections

The best way to prevent the spread of STIs is to practise safer sex through the use of condoms with lube and dams.

**Txt or call 0416098593
or Scan the QR code to
make a booking online**

**STIs are infections
that are spread
during sexual
contact (vaginal,
anal, oral sex)**

STI tests are quick and painless (usually a simple urine test) and are usually free.

Where can I get an STI test?

The Spot at headspace Casuarina,
headspace Katherine or
NTAHC Darwin.
