FOR IMMEDIATE RELEASE

Trumbull County Treasurer Announces Delay in Property Tax Bills Due to Statewide Inflation Cap Credit

WARREN, Ohio June 25, 2026- Trumbull County property owners will experience a delay in receiving their second-half property tax bills due to the implementation of the new Ohio Inflation Cap Credit established under Ohio House Bill 186, **Trumbull County Treasurer Agostino Ragozzino** announced today. This statewide legislation introduces significant property tax reforms and relief measures, benefiting property owners across Ohio.

In light of the changes, the Ohio Tax Commissioner has extended the property tax payment deadline from the standard **August 7th** due date to **August 31, 2026**, for real estate. Manufactured homes due date has been extended from **July 31st** to **August 21, 2026**. Taxpayers are advised to refrain from submitting payments until they received their updated bills or verify the exact amount owed via the Trumbull County Treasurer's website at treasurer@co.trumbull.oh.us. Submitting an estimated payment may result in an overpayment, complicating the refund process.

Inflation Cap Credit

Ohio House Bill 186 introduces an innovative Inflation Cap Credit to provide relief to property owners by reducing tax burdens tied to inflationary pressures. This new credit will be directly applied to second-half tax bills, requiring a recalculation of amounts owed for every property in Trumbull County.

To accommodate the changes, additional time was required for the Ohio Department of Taxation and Trumbull County to calculate and apply these credits to individual tax rolls. Upgrades to county software systems were also necessary to ensure the accurate application of the new credit, a process recently finalized by the third-party software vendor.

What Property Owners Can Expect

Trumbull County residents will receive updated property tax statements in the coming weeks after verification and integration procedures are completed. Homeowners with mortgage escrow accounts are not required to take any action, as payments will be managed directly by their mortgage servicers.

"We recognize that delays in receiving property tax statements may cause inconvenience and we're committed to ensuring accuracy and transparency throughout this process. These changes represent a positive step toward alleviating some of the tax burdens for residents across Ohio," said Ragozzino expressing his team's gratitude for the understanding shown by residents during the transitional period.

We encourage you to visit the Trumbull County Treasurer's website at treasurer@co.trumbull.oh.us for updates on when second half bills will be sent.
