NATIONAL PRESENCE - PERSONAL SERVICE

Drone Security Patrol Program

Replace mobile patrols and camera trailers with active aerial security

Cascadia Global Security is launching a turnkey Drone Security Patrol service for commercial properties that need better overnight coverage, stronger deterrence and response, higher quality security reporting, and real human customer service.

Installed and operational in under 3 weeks

WHAT THE SYSTEM DOES

Active Nightly Patrols

Each client receives 6-12 patrols per night (size/complexity dependent), resulting in a full hour of daily security air time.

Randomized Timing + Flight Paths

Varied patrol patterns and timing so potential offenders cannot learn your routine.

Vetted Pilots & Hardware

FAA Part 107-certified drone pilots, 100% cross-trained in security operations. NDAA-compliant U.S. drone hardware available.

Visible Deterrence

Light color change, alert/alarm, 2-way-talk, spotlight, and active follow capability.

Client Dashboard + Documentation

Timestamped logs, footage, operator notes, KPI tracking, historical reporting.

Custom Client Protocols

Operators escalate to you, your personnel, or emergency services in seconds. Quality reports and documentation.

HOW IT COMPARES

	Mobile Patrol	Camera Trailer	Standing Guard	Drone Patrol
Nightly Patrols	2-3 stops per night (brief)	Fixed location	Hourly	6-10x per night; active aerial detection and deterrence patrols
Documentation /Reporting	Minimal	Video	Minimal	Full logs + footage + trained operator reporting
Incident Escalation	Guard discretion	Alert only	Guard discretion	Operator review + client notification + police dispatch
Incident Detection	Inconsistent	Passive	Inconsistent	Active search across perimeter, rooftops, lots, and dark zones
Service Quality	Inconsistent	Consistent equipment, inconsistent response	Inconsistent	High; standardized patrol model with performance metrics
Deterrent Value	Low	Low	Moderate	High; active aerial presence
