

GOLDSTREAM RV

AUSTRALIAN MADE AND OWNED

EST 1993

POP TOP

PRODUCT RANGE

A silver SUV is towing a Goldstream RV on a dirt road. The RV is black and silver with a large side door and a rear door. The road is surrounded by trees and grass. The Goldstream RV logo is visible on the side of the vehicle.

GOLDSTREAM RV

TAKING YOU PLACES
NEVER BEFORE EXPLORED

Since 1993 Goldstream RV have been producing high quality Camper Trailers, Pop-tops and Caravans to suit the needs of Australian caravanners.

We have thousands of our vans out on the road right now, travelling the country in complete confidence and style.

Adventure-bound travellers choose Goldstream RV for our off-road reputation, quality of build and value for money. All of our vans are built to exacting standards and we are constantly evolving our range to offer you the latest in equipment and style.

It all starts from the ground up selecting the best suspension systems fitted to suitable chassis, walls, internals and appliances to give you an overall product suited to your individual needs and requirements.

Our highly trained production team utilise the latest in equipment with all of our vans meeting the highest industry standards across the board.

Buying a Goldstream RV means you are getting a product that is 100%

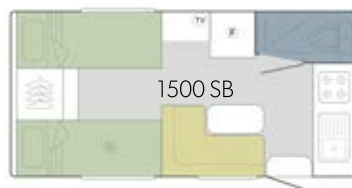

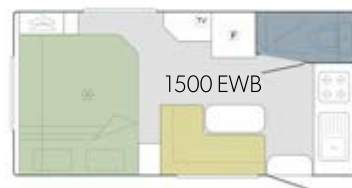

Aussie Made, right here in Victoria and ensures it not only looks great, but is built to last. Each of our vans are up to the task of travelling in some of the harshest conditions around Oz, whilst holding its resale value.

Enjoy your travels in a Goldstream RV - your world of adventure awaits!

LOW RIDER OPTION

If you are looking for a Pop top with lower travel and storage height without moving into the camper market, the “Low Rider” option is one you should investigate. Available on our 1760 through to 1860 models the “Low Rider” has the same internal layout but with a few minor alterations that can make a big difference when not traveling and can allow many more to store their van at home, saving on paying for offsite caravan storage. Additionally, the lower height means less wind drag behind your tow vehicle and added access to those remote, tight camping spots.

In the “Low Rider” we have reduced wall height by 140mm. Internally, we have removed some of the overhead cupboards to the sides to reduce visual bulk at eye level and maintain functionality and reduced the fridge size to a still generous 164lt allowing a microwave oven to be fitted above. The “Low Rider” option is available in our Adventure and Panther Packages, overall travel heights are reduced by 140mm from the usual for each of these Packages.

*Disclaimer: No Triple Bunks available in a Low Rider Option.
