Eclipse WEEKENDER

By Supreme

Bringing you the precision of our Eclipse Sunray in a family layout.

ONE-PIECE ROOF TECHNOLOGY

Experience unparalleled protection against inclement weather conditions (such as heavy rain, hailstorms or snow) during your travels thanks to the Weekender's one-piece roof. Structural integrity is significantly enhanced and leaks eliminated using this unique engineering design marvel.

OFF-ROAD FAMILY VAN

The Eclipse Weekender comes equipped with a Cruisemaster CRS 3.3kg Tandem Axle Suspension, a 300mm A-Frame Extension to handle those narrow turns, a 50mm Chassis Riser to make your way easily through rivers, and an 800mm Checker Plate to give your van the ultimate protection from stones, sand, and dirt. A 200amp Lithium battery comes standard as well as the RedArc Manager 30 battery management system. This van is your go-to for a smooth riding experience on corrugated roads and heaps of caravanning fun and adventures.

TECHNOLOGY

The Eclipse Weekender is filled to the brim with technologies and features, such as an Instant Hot Water System, where each family member can enjoy a hot shower, or your dishes can have that extra clean with a hot water rinse. Worth mentioning is the Weekender's Fiberglass Panels that make the van lighter, more durable and resistant to corrosion and weather conditions ie. our harsh off-grid summer temperatures. The fiberglass panel also provides better insulation, helping to maintain a comfortable interior temperature.

SANDWICH PANEL CONSTRUCTION

The Weekender is constructed using innovative sandwich panel technology that offers superior insulation to ensure you remain comfortable during the winter months and cooler in summer. The walls are manufactured from structural integrated panels, consisting of a 2mm external fibreglass skin, 25mm foam core (provides mechanical and insulation properties) and 2mm internal fibreglass skin, giving the van a total of 29mm of insulation.
