

The Village of Minster offices will be closed Monday, May 25th, in observance of Memorial Day

May 2026
Volume 30, Issue 5

Minster Electric Receives National Recognition

American Municipal Power, Inc. (AMP) recognized the Minster Electric Department for outstanding performance in safety, reliability, and operations. Minster earned a Diamond level Excellence in Safety Award for having the lowest incident rate in its category (utilities with fewer than 15,000 worker-hours), a Platinum-level Reliable Public Power Provider (RP3) designation for excellence in reliability, safety, workforce development, and system improvement, and a Certificate of Excellence in Reliability for ranking in the top 25% nationwide in 2025.

Grass Clippings

DON'T PUT OR BLOW GRASS OR LEAVES IN THE GUTTER!

Not only is it illegal, but everything that goes in the gutter winds up in our catch basins and storm pipes. Unlike wastewater generated when you flush the toilet or wash the dishes, storm water is not cleaned or treated, so anything that goes to the storm drain ends up in the water of the Miami-Erie Canal. Our storm drainage system is designed to remove rainwater from the streets. It cannot handle trash, leaves, grass, or other solid materials – including animal feces. These things will clog up the pipes and then cause backups and flooding when it rains. Be a good neighbor and don't plug the drain!

The Village collection facility is available to residents as a place to dispose of yard waste. The Village has implemented operating procedures regulating various aspects of the facility. The following is a quick highlight of the most frequently asked questions:

- The facility is open for material deposit from dawn to dusk every day.
- All yard waste must be deposited on the appropriate pile (grass with grass and branches with branches) NO co-mingling.
- Plastic bags, concrete, construction and demolition materials are prohibited.
