

Choose a profile to fit your product

ProtectPLUS offers a comprehensive range of profiles for all your packaging requirements.

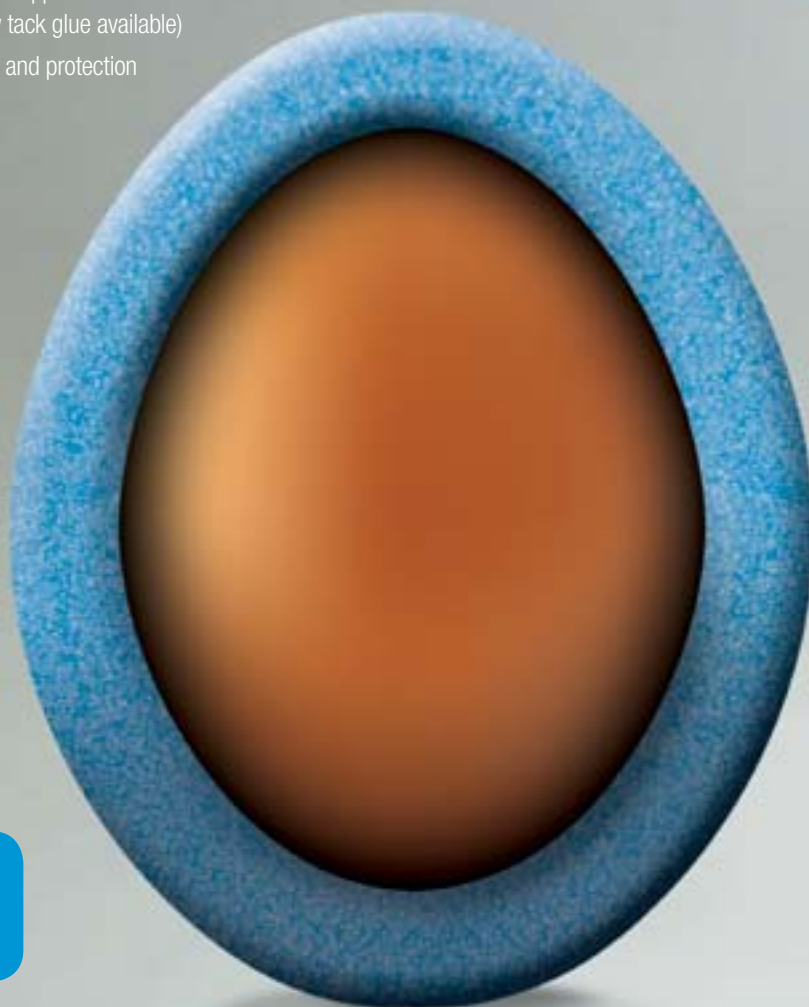

Standard Profiles

Protective profiles are commonly used in glass, metal, packaging and furniture industries.

Bespoke Profiles

Profiles cut to size, mitrered corners or various glued corner options - specific to your needs.

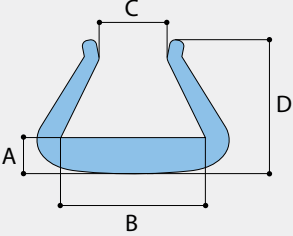

- Saves time and money
- No waste materials
- No DIY alterations that could lead to accidents
- Perfect fit for maximum protection
- Cutting edge protection
- Adhesive options for ease of application (double sided tape and low tack glue available)
- Excellent shock absorption and protection
