

CCTV – Croydon Nurseries

The nursery CCTV surveillance is intended for the purposes of:

- promoting the health and safety of children, staff and visitors
- protecting the nursery building and resources.
- To support staff training and help improve staff practice
- Facilitate the identification of any activities/events which might warrant disciplinary proceedings being taken against staff and assist in providing evidence to the Manager

The system will not be used for the following:

- Providing images for the world-wide-web
- Handing images to a third party, other than the police or officials if deemed necessary, within the compliance of the Data Protection Act 1998
- As a 'webcam' facility for parents to view recordings

The system comprises of 16 to 20 fixed cameras. These are placed around the nursery, inside and outside, but **not** in the toilets or changing areas. This is to ensure the dignity of children is maintained.

The use of CCTV to control the perimeter of the nursery for security purposes has been deemed to be justified by the nursery management. The system is intended to capture images of intruders or of individuals damaging property or removing goods without authorisation or of antisocial behaviour.

Monitoring

The CCTV is monitored centrally from the nursery office and is registered with the Information Commissioner under the terms of the Data Protection Act. This policy outlines the nursery's use of CCTV and how it complies with the Act. The nursery complies with Information Commissioner's Office (ICO) CCTV Code of Practice to ensure it is used responsibly.

All authorised operators and employees with access to images are aware of the procedures that need to be followed when accessing the recorded images. All operators understand their responsibilities under the CCTV Code of Practice. All employees are aware of the restrictions in relation to access to, and disclosure of, recorded images. A copy of this CCTV Policy will be provided on request to staff, parents and visitors to the nursery.

Location of cameras

The location of CCTV cameras will also be indicated, and adequate signage will be placed at each location in which a CCTV camera(s) is sited to indicate that CCTV is in operation. Adequate signage will also be displayed at the entrance to the nursery's property.

Storage and retention

The images captured by the CCTV system will be retained for a maximum of 30 days, except where the image identifies an issue and is retained specifically in the context of an investigation/prosecution of that issue. The images/recordings will be stored in a secure environment with a log of access kept. Access will be restricted to authorised personnel.

Supervising the access and maintenance of the CCTV System is the responsibility of the registered person and nursery manager. In certain circumstances, the recordings may also be viewed by other individuals. When CCTV recordings are being viewed, access will be limited to authorised individuals on a need-to-know basis. Files will be stored in a secure environment with a log of access to recordings kept.

Subject Access Requests (SAR)

Individuals have the right to request access to CCTV footage relating to themselves under the Data Protection Activity / GDPR. Individuals submitting requests for access will be asked to provide sufficient information to enable the footage relating to them to be identified. For example, date, time and location.

The nursery will respond to requests within 14 calendar days of receiving the request. The nursery reserves the right to refuse access to CCTV footage where this would prejudice the legal rights of other individuals or jeopardise an on-going investigation.

A record of the date of the disclosure along with details of who the information has been provided to (the name of the person and the organisation they represent) and why they required it will be made.

Where footage contains images relating to 3rd parties, the nursery will take appropriate steps to mask and protect the identities of those individuals.

Complaints

Complaints and enquiries about the operation of CCTV within the nursery should be directed to the manager of the nursery in the first instance.

Responsibilities

The manager and managing director will ensure:

- That the use of CCTV systems is implemented in accordance with this policy
- They oversee and co-ordinate the use of CCTV monitoring for safety and security purposes
- That all CCTV monitoring systems will be evaluated for compliance with this policy
- That the CCTV monitoring is consistent with the highest standards and protections
- They review camera locations and be responsible for the release of any information or recorded CCTV materials stored in compliance with this policy
- That the perimeter of view from fixed location cameras conforms to this policy both internally and externally
- That all areas being monitored are not in breach of an enhanced expectation of the privacy of individuals
- That external cameras are non-intrusive in terms of their positions and views of neighbouring residential housing and comply with the principle of "Reasonable Expectation of Privacy"
- That monitoring footage are stored in a secure place with access by authorised personnel only
- That images recorded are stored for a period not longer than 30 days and are then erased unless required as part of a criminal investigation or court proceedings (criminal or civil).
- That camera control is solely to monitor suspicious behaviour, criminal damage etc. and not to monitor individual characteristics
- That under certain circumstances, the CCTV footage may be used for training purposes (including staff supervisions)
