Our Mission:

To promote locally based agriculture through education, community outreach and networking, and to further the understanding of the links between farming, food, health and local economies.

About Us:

We believe in the importance of gathering as a community and celebrating an incredible meal made from what's growing all around us. We grow great food in Yolo County and we produce the largest variety of crops of any county in California!
Let's celebrate - We are the farm to the fork!

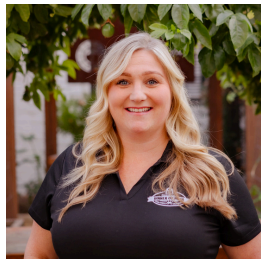

From the very beginning, we have purchased what goes into your amazing courses. We pay our local growers and ranchers and we support our local businesses. We respect that most businesses operate with small margins. When you purchase a ticket or become a sponsor, you're contributing to a ripple effect that spreads throughout the local economy, benefitting and supporting our local growers, ranchers, chefs, wineries and breweries, servers, student clubs, and non-profit organizations. You're not just spending money on a meal or event; you're actively contributing to the health and vitality of our local community.

We also believe it's vital that we teach our young people where their food comes from and the importance of eating healthy nutritious food. Thanks to the generous support of our guests and sponsors, we have Woodland's Edible Learning Garden as the perfect classroom. This same classroom produces veggies and fruit for our friends at Fourth and Hope.
