

UNLOCK SECURITY CLEARED OPPORTUNITIES WITH WHIZDOM

DO YOU NEED A SECURITY CLEARANCE?

As an accredited member of the Defence Industry Security Program (DISP), Whizdom can facilitate the sponsorship of Australian Government Security Vetting Agency (AGSVA) clearances.

We manage:

- new clearances for appropriately skilled people wanting to break into the contracting market.
- uplift of current clearance levels.
- takeover of clearance processes for departing personnel.

Clearance applicants cover all clearance costs upfront and handle all revalidation costs.

APPLICATION REQUIREMENTS

To apply for a clearance, you must have as a minimum:

- Australian Citizenship
- Checkable background including valid documents and records
- Ability to nominate referees
- Relevant work experience applicable to Government Roles

The level of security clearance you apply for and individual circumstances will determine the number and complexity of the questions asked and the personal documents required.

Depending on the level of security clearance, you may be asked for information about immediate family past and present, cohabitants, finances, employment history, education history and overseas travel. Usually, a Baseline asks for 5 years history, NV1 and NV2 10 years.
