Your Founder's Focus Score - What It Really Means

85-100 Elite Founder Focus

You're already operating from heart-aligned focus. Most founders at this level are scaling fast and thoroughly enjoying the ride.

70-84 Strong, But One Hidden Block

You're 90% there. One sneaky misalignment is quietly keeping you from the effortless 2X most of our clients experience.

50-69 Classic Founder Trap

Head-driven hustle is costing you money, energy, and joy. Revenue plateaus and burnout live here. Good news: it's 100% fixable.

Below 50 Focus Misalignment Alert

Your current focus is actively repelling the income, freedom, and relationships you want. This is why everything feels harder than it should.

The Truth Most Coaches Won't Tell You

It's not your strategy, ads, or team that's limiting you.
It's a single focus misalignment between your head and your heart.

When we fix that one thing in our private clients (often in the first session), they:

- Double revenue without working more hours
- Finally delegate and accurately trust their team/vendors
- Watch their marriage/partnerships get better instead of worse
 - Fall back in love with their business
