

## **ASL LOCKER ROOM MONITORING POLICY**

### **FACILITIES:**

The following is a description of our practice and competition facilities to allow athletes and their families to plan their use:

1. We practice at: Augusta Aquatics Center

This location has: Open locker rooms with showers and toilets. There are separate locker rooms for men and women. The changing areas in each locker room are open to the general public. As such, there are likely people who are not associated with ASL in the changing area around the time of practice.

2. We practice at: Brigham Pool

This location has: Open locker rooms with showers and toilets. There are separate locker rooms for men and women. The changing areas in each locker room are open to the general public. As such, there are likely people who are not associated with ASL in the changing area around the time of practice.

3. We practice at: USC Aiken Pool

This location has: Open locker rooms with showers and toilets. There are separate locker rooms for men and women. The changing areas in each locker room are open to the general public. As such, there are likely people who are not associated with ASL in the changing area around the time of practice.

### **MONITORING:**

Coaches and staff make every effort to recognize when an athlete goes to the locker room or changing area during practice and competition and, if they do not return in a timely fashion, we will check on the athlete's whereabouts. We discourage parents from entering locker rooms and changing areas unless it is truly necessary. In those instances, it should only be a same-sex parent. If this is necessary, parents should let the coach or administrator know about this in advance.

If an athlete needs assistance with his or her uniform or gear (for example, a child under the age of eight), or an athlete's disability warrants assistance, then we ask that parents let the coach or an administrator know beforehand that he or she will be helping the athlete.

ASL has staggered practices, with different groups arriving and departing throughout the day. It is, therefore, not practical to constantly monitor locker rooms and changing areas over this extended course of time. While we do not post staff inside or at the doors of the locker rooms and changing areas, we do make occasional sweeps of these areas. Staff conduct these sweeps with women checking on female locker rooms, and men checking on male locker rooms.

#### **USE OF CELL PHONES AND OTHER MOBILE RECORDING DEVICES:**

Cell phones and other mobile devices with recording capabilities, including voice recording, still cameras and video cameras increase the risk for different forms of misconduct in locker rooms and changing areas. The USA Swimming Athlete Protection Policies prohibit the use of such devices in the locker room or other changing areas. 305.3 Use of audio or visual recording devices, including a cell phone camera, is not allowed in changing areas, rest rooms or locker rooms.

**ASL prohibits any use of cell phones in locker rooms or changing areas, in addition to the use of any other audio or visual recording devices.**
